## A Sticky Bag for Increased Stability When Shooting

You've heard and used shooting bags before, but when Armageddon Gear calls one of its bags a "Game Changer," it's time to sit up and listen. The company's offered game-changers before, but the Sticky Pint-Sized Game Changer solves the problem of bags sliding around on obstacles, costing you valuable time before making a shot. Each Armageddon Gear Sticky Pint-Sized Game Changer is constructed with a waxed-canvas shell that has special "sticky" textile fabric applied to particular areas on the outside of the bag. These spots include the gusset, top and one side of the bag. The result is an improved coefficient of friction that provides a more-stable shooting position. Best of all? This sticky canvas won't break down over time under the hot sun, like other sticky fabrics. The Armageddon Gear Sticky Pint-Sized Game Changer measures 7" X 4.5" X 5" and is filled with micro silica. The bag features a tan color and weighs in at 5 pounds. Most positional shooting bags are not filled firmly on purpose. The reason being a loose filled bag will fill in gaps, drape across obstacles, and create a more stable shooting platform than a firm filled bag.
