## A 20-Round Magazine for the .17 WSM

For those who take advantage of the Franklin Armory F17 upper receiver for their AR-15, each gun ships with a 10-round magazine. However, for taking down high numbers of small game animals, having a larger magazine capacity is helpful, so Franklin Armory developed this 20-round magazine that works with the company's F17 rifles. This Franklin Armory F17 magazine is purpose-built to contend with the unique nature of the .17 WSM, a rimfire cartridge that's popular for varmint and predator hunting. The magazine is constructed from durable polymer and features an all-black finish.
