AR .308/M5 Field Repair Kit Safety Instructions

Introduction

Thank you for choosing the AR .308/M5 Field Repair Kit by AERO PRECISION. This kit is designed to help you maintain and repair your rifle while ensuring safety and reliability during your shooting activities. Please read this safety instruction guide carefully to understand how to use the product safely and effectively.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Keep the kit out of reach of children and unauthorized users.
- Always handle firearms with care, following all safety protocols.
- Inspect the kit regularly for any signs of wear or damage.
- Report any unsafe products or incidents to the appropriate authorities.
- Stay informed about recall updates through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Before using the kit, ensure that your rifle is unloaded and pointed in a safe direction.
- Use only the components specified in the kit to avoid compatibility issues.
- Wear appropriate safety gear, including eye protection, when performing repairs.
- Avoid using excessive force when installing or replacing parts to prevent damage.
- If you are unsure about any part of the installation or repair process, seek assistance from a qualified gunsmith.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools and components from the kit.
- Ensure your working area is clean and free of distractions.

2. Using the Takedown Pin Detent and Spring

- Remove the existing detent and spring from the takedown pin hole.
- Insert the new takedown pin detent and spring in place.

3. Installing the Bolt Catch Spring and Buffer

- Remove the bolt catch from your rifle.
- Replace the old bolt catch spring with the new one from the kit.
- Reattach the bolt catch buffer as needed.

4. Replacing the Trigger and Hammer Pins

- Ensure the rifle is unloaded.
- Carefully remove the existing trigger and hammer pins.
- Install the new pins from the kit, ensuring they are securely in place.

5. Installing the Safety Selector Spring and Detent

- Remove the safety selector from the rifle.
- Replace the safety selector spring and detent with the new components from the kit.

6. Buffer Retainer and Spring Installation

- Remove the buffer retainer and spring if necessary.
- Install the new buffer retainer and spring from the kit.

7. Trigger Guard Roll Pins

- If replacing the trigger guard, remove the old roll pins.
- Install the new roll pins provided in the kit.

8. Final Checks

- After all installations, doublecheck that all components are securely in place.
- Test the functionality of the rifle to ensure everything is operating correctly.

Disposal Instructions

- Dispose of any old or damaged parts in accordance with local regulations.
- Do not throw away components in regular household waste.
- Consider recycling where possible or consult local waste management for proper disposal methods.

Contact Information for Further Support

For any inquiries regarding safety or product issues, please consult your local retailer or authorized AERO PRECISION dealer for assistance.
