

AR SHORT PISTOL RECEIVER EXTENSION BUFFER TUBE KIT - STRIKE INDUSTRIES AR SHORT PISTOL RECEIVER EXTENSION BUFFER TUBE BLACK

[Rifle Parts](#) > [Receiver Parts](#) > [Buffer Tube Parts](#) > [Buffer Tubes](#)

The Strike Industries Pistol Buffer Tube introduces added functionality to an often overlooked part of an AR pistol PDW. At an overall length of just over 5 inches, the pistol buffer tube reduces the pistol's overall length. The pistol buffer tube comes complete with our proven tungsten filled buffer and flat-wire buffer spring to aid in reliable cycling over a long service life. The receiver extension features an anti-rotation tab that locks into place over the buffer retaining plunger. The Tube is machined from 7075-T6 aluminum for greater strength than standard 6061 tubes. An integral QD socket at the rear of the tube facilitates push-pull operation when used in conjunction with slings. The Slick Version features a smooth profile to mount our upcoming Strike Industries' Viper Pistol Stabilizer as well as other popular aftermarket braces.
