## **A Grip Screw You Can Adjust in the Field**

AR-15 grip screws are easy to add to any receiver, but they require a long Allen key that travels the full length of the grip before bottoming out on the Hex screw head inside. In the shop, this is no big deal, but what if you have to do fixes and maintenance on your rifle in the field? The Armaspec Field Adjustable Grip Screw has an extended profile that allows AR owners to remove their grip easily. Each Armaspec Field Adjustable Grip Screw has an easily accessible screw head that can be tightened or loosened with a coin, key, knife, short screwdriver or other flat-bladed object. This means you won't have to keep a long Allen key on your kit at all times, just in case.

# Safety Instruction Guide for the Armaspec Field Adjustable Grip Screw

## Introduction

Thank you for choosing the Armaspec Field Adjustable Grip Screw for your AR15. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read and follow these instructions carefully to avoid potential hazards and ensure a safe experience.

## General Safety Guidelines

- Ensure that your firearm is unloaded before installing or adjusting the grip screw.
- Always handle firearms with care and follow standard firearm safety practices.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the grip screw for any signs of wear or damage.
- When using tools, such as a coin or screwdriver, exercise caution to avoid injury.
- In case of any accidents or injuries, report them to the appropriate authorities.

## Specific Safety Precautions for Use

- Use only the recommended tools (coin, key, knife, or short screwdriver) to adjust the grip screw.
- Avoid using excessive force when tightening or loosening the screw to prevent stripping the screw head.
- Do not attempt to modify the grip screw or use it for purposes other than intended.
- Be cautious of sharp edges on tools and the grip screw itself to prevent cuts or injuries.
- Ensure that the grip is securely attached before using the firearm.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Gather the necessary tools (coin, key, knife, or short screwdriver).

### 2. Installation:

- Locate the existing grip screw on your AR15.
- Using the appropriate tool, carefully loosen the existing grip screw.
- Remove the grip from the receiver.
- Align the Armaspec Field Adjustable Grip Screw with the grip and receiver.
- Insert the grip screw into the designated hole and tighten it using the tool. Ensure it is snug but do not overtighten.

### 3. Adjustment:

- To adjust the grip, use the same tool to loosen the screw as needed.
- Adjust the grip position to your preference and retighten the screw securely.

### 4. Final Check:

- Ensure that the grip is firmly attached and does not wobble.
- Conduct a final inspection of the firearm to ensure it is in safe working order.

## **Disposal Instructions**

- Dispose of any old grip screws or components in accordance with local regulations.
- Do not dispose of the product in regular household waste. Check for local recycling programs or hazardous waste disposal options.

## **Contact Information for Further Support**

For safety inquiries or further assistance, please refer to the manufacturer's website or customer service resources. Ensure you have the product information available for reference.

By following these safety instructions, you can help ensure a safe and enjoyable experience with your Armaspec Field Adjustable Grip Screw. Thank you for your attention to safety!
