[Rifle Parts](#) > [Triggers Parts](#) > [Trigger Guards](#)

## An Improved Trigger Guard That Provides Room for Gloved Hands

Like the company's S2 trigger guard, the Armaspec S1 trigger guard is built to offer greater room inside the trigger well for gloved hands or shooters who have larger-than-average mitts. However, this one features a slightly different profile while still filling the unsightly gap between the trigger guard and the pistol grip. The drop-in design of the Armaspec S1 trigger guard is machined from billet aluminum and fits all standard AR-15 and AR .308 lower receivers. Builders will receive a setscrew, hex key and roll pin along with the trigger guard itself for installation. The guard is made in the USA and covered by the company's lifetime warranty.
