## A User-Adjustable Ambidextrous Safety Selector

One of the most popular upgrades for mil-spec AR-15s and similarly outfitted AR .308 rifles is an enhanced safety selector. Since this lever allows the gun to fire and makes it safe, it's critical that this control receives positive engagement when needed, and the Armaspec SFT 45/90 Ambidextrous Safety Selector is built to allow for easy activation when needed. The design of the Armaspec SFT 45/90 safety selector allows users to choose between a 45- or a 90-degree safety throw, whichever better meets their needs. The selector provides a crisp, smooth transition from fire to safe and back again. Torx screws are used for installation, and the screws and key needed for the install are included. The levers used on the Armaspec SFT 45/90 selector are machined from aluminum, while the core that threads through the receiver is made from hardened steel. The entire unit is made in the USA and is covered by the company's lifetime warranty.

## Attributes

- Name: [ARMASPEC SFT45/90 AMBIDEXTROUS SAFETY SELECTOR BLACK](#)
- Manufacturer: [ARMASPEC](#)

# AR15 SFT45/90 Ambidextrous Safety Selector Safety Instruction Guide

## Introduction

Thank you for choosing the AR15 SFT45/90 Ambidextrous Safety Selector. This product is designed to enhance the safety and functionality of your AR15 or similarly outfitted AR .308 rifle. It is essential to follow the safety guidelines and instructions provided in this manual to ensure safe and effective use.

## General Safety Guidelines

- Always treat every firearm as if it is loaded.
- Ensure the safety selector is in the "safe" position when not in use.
- Never point the firearm at anything you do not intend to shoot.
- Keep your finger off the trigger until you are ready to fire.
- Store firearms and ammunition separately and securely.
- Regularly inspect the safety selector and firearm for any signs of wear or damage.
- If you notice any irregularities, discontinue use and consult a qualified gunsmith.

## Specific Safety Precautions for Use

- Ensure that the safety selector is installed correctly before use.
- Familiarize yourself with the operation of the safety selector before handling the firearm.
- Use only the appropriate tools and parts for installation.
- Avoid using excessive force when operating the safety selector.
- Keep the area around the safety selector clean and free of debris.
- Always follow the manufacturer's instructions for safe handling and operation.

## Instructions for Installation and Usage

### Installation

#### 1. Tools Required:

- Torx screws (included)
- Torx screwdriver (not included)

#### 2. Installation Steps:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove the existing safety selector if applicable.
- Align the Armaspec SFT45/90 Ambidextrous Safety Selector with the receiver.
- Insert the Torx screws into the designated holes and tighten securely, ensuring not to overtighten.
- Test the selector to ensure smooth operation between the "fire" and "safe" positions.

### Usage

- To switch from "safe" to "fire", rotate the selector lever to the desired angle (45 or 90 degrees).
- Ensure that the selector is fully engaged in either position before firing.
- After use, always return the selector to the "safe" position.

## Disposal Instructions

- Dispose of the product in accordance with local regulations regarding metal and electronic waste.
- Do not dispose of the product in household waste.
- Contact your local recycling center for proper disposal methods.

## Contact Information for Further Support

For any inquiries or support regarding the Armaspec SFT45/90 Ambidextrous Safety Selector, please refer to the manufacturer's website or customer service channels.

## Conclusion

By following these safety guidelines and instructions, you can ensure safe and effective operation of your AR15 SFT45/90 Ambidextrous Safety Selector. Your safety and the safety of those around you is paramount. Thank you for your attention to these important guidelines.
