## A Set of Trigger and Hammer Pins With an Anti-Walk Design

Nothing's more annoying on a mil-spec AR-15 lower than when your trigger or hammer pins start walking, and this can cause major function issues, impeding the reliability and dependability of your rifle. Solve the issue by adding a set of these Armaspec Anti-Walk Trigger and Hammer Pins to your lower receiver. Machined from stainless steel and coated with a black-oxide finish, the Armaspec anti-walk pins are secured into place through the use of two hex screws, and the keys required for installation are included. The pins are standard .154 size, and the company recommends using thread-locking compound on the screws during installation. Pins will fit both AR-15 and AR .308 receivers, are made in the USA and are covered under Armaspec's lifetime warranty.

## Attributes

- Name: [ARMASPEC ANTI-WALK TRIGGER/HAMMER PINS W/ KEYS](#)
- Manufacturer: [ARMASPEC](#)

## Safety Instruction Guide

### Introduction

Thank you for choosing the Armaspec AntiWalk Trigger and Hammer Pins. This product is designed to enhance the reliability of your AR15 or AR .308 rifle by preventing trigger and hammer pins from walking out of place. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

### General Safety Guidelines

- Always ensure that the firearm is unloaded before working on it.
- Handle all firearm components with care to avoid injury.
- Follow all local laws and regulations regarding firearm modifications.
- Ensure that the installation is performed in a safe and controlled environment.
- Keep the product out of reach of children and unauthorized users.
- Be aware of potential hazards associated with improper installation or use.

### Specific Safety Precautions for Use

#### • Potential Hazards:

- Improper installation may lead to malfunction of the firearm.
- Use of incorrect tools or excessive force during installation can damage the pins or lower receiver.
- Failure to use threadlocking compound may result in pins loosening over time.

#### • Instructions for Avoiding Hazards:

- Always use the recommended tools for installation.
- Follow the installation instructions precisely to avoid damage or malfunction.
- Regularly inspect the pins to ensure they are secure and functioning properly.

#### • Age Specific Warnings:

- This product is intended for use by individuals who are legally allowed to own and modify firearms. Ensure that users are of legal age and have appropriate training.

### Instructions for Installation and Usage

#### 1. Preparation:

- Gather the necessary tools: a hex key (included), threadlocking compound, and any other required tools.
- Ensure that your AR15 or AR .308 rifle is unloaded and in a safe working area.

#### 2. Installation Steps:

- Remove the existing trigger and hammer pins from the lower receiver.
- Align the Armaspec AntiWalk Trigger and Hammer Pins with the corresponding holes in the lower receiver.
- Insert the pins into the holes.
- Secure the pins in place using the included hex screws.
- Apply a small amount of threadlocking compound to the screws before tightening them to ensure

- they remain secure.
- Tighten the screws until snug, but avoid overtightening to prevent damage.

### 3. PostInstallation Check:

- After installation, check the functionality of the trigger and hammer.
- Ensure that the pins are securely in place and do not move when the trigger is pulled.

### 4. Regular Maintenance:

- Periodically check the pins and screws to ensure they remain tight and secure.
- Reapply threadlocking compound as needed during maintenance checks.

## Disposal Instructions

- Dispose of any packaging materials in accordance with local regulations.
- If the product is no longer needed or if it becomes damaged, dispose of it in a responsible manner to minimize environmental impact. Check local guidelines for proper disposal of metal components.

## Contact Information for Further Support

For safety inquiries or assistance, please refer to the official Armaspec website or customer support channels. Ensure that you have the product details available for reference.

By following these safety instructions, you can ensure the safe use of the Armaspec AntiWalk Trigger and Hammer Pins. Thank you for prioritizing safety in your firearm modifications.
