A Complete AR-15 Buffer Kit With an Enhanced Tube Design

The AR15 Enhanced Carbine Buffer Kit with your choice of Heavy Buffer is the perfect option when you're aiming to dial in the operation of your rifle build. This kit highlights our Enhanced Carbine Buffer Tube that delivers features that increase the reliability, security, and simplicity of your build. Heavy buffers are traditionally selected when you are trying to slow the down the movement of the BCG under recoil. Common situations to use a heavy buffer include over-gassed barrels, or when you are assembling an AR pistol or short-barreled configuration. If this is not the case, you may want to take a look at our Enhanced Carbine Buffer Kit with a standard Carbine Buffer. Carrier Support Extensions - Fully supports and guides the bolt carrier group into the buffer tube after a round is fired, preventing carrier tilt and unnecessary wear on key components. The Carrier Support Extensions also extend on either side of the buffer retaining pin, securing the pin in place while simultaneously preventing the buffer tube from backing out under recoil. Position Guide Drain Holes - Each position guide features a drainage hole that removes water from the system in marine environments. During routine operation, smoother cycling is achieved by allowing additional air to escape during the compression cycle of the rifle. Ramped Tube Design - Allows for effortless installation of traditional carbine stocks. We have removed the need for messing around with screwdrivers to get your furniture over the end of the buffer tube. Simply hold down the adjustment piece and push your stock onto the Enhanced Buffer Tube. Proper Thread Depth - Traditional buffer tubes feature extended unused threads that can cause your stock to become trapped when fully collapsed. While some turn these threads down, we've correctly machined the threads to the proper depth, providing a much cleaner look. Mil-spec Dimensions - Machined from a 7075-T6 Aluminum Impact Extrusion to mil-spec dimensions. All standard carbine stock options made to work with mil-spec buffer tube dimensions are compatible with our Enhanced Carbine Buffer Tube. Includes: Enhanced Carbine Buffer Tube, 6-position Your choice of Heavy Buffer (H/H2/H3) Carbine Buffer spring Endplate and lock nut Made in the USA *Enhanced Carbine Buffer Tube is compatible with mil-spec stock options.

Attributes

- Name: [AERO PRECISION AR-15 ENHANCED CARBINE BUFFER KIT W/ H2 BUFFER](#)
- Manufacturer: [AERO PRECISION](#)
- Product no.: 100039051
- Mfr. No.: APRH101242
- Style: Carbine,Kit
- Weapon type: AR-15
- Delivery weight: 0.363kg
- Shipping height: 44mm
- Shipping width: 44mm
- Shipping length: 333mm
- UPC: 815421028362

Item details

Made in USA

US export classification: 0A501.x

Safety Instruction Guide for AR15 Enhanced Carbine Buffer Kit

Introduction

Thank you for choosing the AR15 Enhanced Carbine Buffer Kit by AERO PRECISION. This guide provides essential safety instructions and information to ensure the safe use and installation of your product. Please read this guide carefully before using the kit.

General Safety Guidelines

- Always handle firearms with care and treat them as if they are loaded.
- Ensure that you are in a safe environment when assembling or modifying your firearm.
- Only use the AR15 Enhanced Carbine Buffer Kit with compatible firearms.
- Follow all local, state, and federal laws regarding firearm modifications and usage.
- Keep the product out of reach of children and unauthorized users.
- If you experience any difficulties or uncertainties during installation or use, seek assistance from a qualified gunsmith.

Specific Safety Precautions for Use

- **Potential Hazards:**
 - Improper installation can lead to malfunctions or accidents.
 - Heavy buffers may affect the cycling of the firearm; ensure compatibility with your build.
 - Always check for any obstructions in the buffer tube before installation.
- **Avoiding Hazards:**
 - Ensure that the firearm is unloaded before beginning installation.
 - Doublecheck all components for damage or wear before use.
 - Use appropriate tools and follow the installation instructions carefully.
 - Regularly inspect the buffer tube and associated components for signs of wear or damage.
- **Age or Audience Specific Warnings:**
 - This product is intended for use by individuals who are knowledgeable about firearms.
 - Do not allow minors to handle or install the buffer kit without adult supervision.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and components: Enhanced Carbine Buffer Tube, Heavy Buffer, Carbine Buffer spring, endplate, and lock nut.
- Ensure that your workspace is clean and free from distractions.

2. Installation Steps:

- **Remove the Existing Buffer Tube:**
 - Ensure the firearm is unloaded.
 - Remove the existing buffer tube by unscrewing it from the receiver.
- **Install the Enhanced Carbine Buffer Tube:**

- Align the Enhanced Carbine Buffer Tube with the receiver.
 - Screw the buffer tube into the receiver until secure.
- **Insert the Buffer and Spring:**
 - Insert the chosen Heavy Buffer into the buffer tube.
 - Follow with the Carbine Buffer spring.
- **Secure the Components:**
 - Place the endplate over the buffer tube.
 - Tighten the lock nut to secure the endplate in place.
- **Final Check:**
 - Ensure all components are tightly secured and there are no loose parts.

3. Usage:

- After installation, conduct a function check to ensure the buffer system operates smoothly.
- Regularly maintain and inspect the buffer kit to ensure safe operation.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- If the product is damaged or no longer in use, consider recycling where applicable.
- Do not dispose of the product in regular household waste.

Contact Information for Further Support

For any questions or concerns regarding the AR15 Enhanced Carbine Buffer Kit, please consult with a qualified gunsmith or contact the manufacturer directly for assistance.

By following these safety instructions, you can ensure a safe and effective experience with your AR15 Enhanced Carbine Buffer Kit. Thank you for your attention to safety.
