

PRO GLO NIGHT SIGHTS SETS FOR GLOCK® - ORANGE OUTLINE SIGHT SET FOR GLOCK® GEN 1-4

[Handgun Parts](#) > [Sights](#) > [Sight Sets](#)

Low-Profile Combat Sights With Easy-To-See Tritium Dots For Fast Targeting In Low Light

Fixed, low-profile combat sights are drop-in replacements for factory sights and feature streamlined contours with rounded corners to help prevent snags and hanging-ups. Precision-machined steel sight bodies sit low in the slide to resist catching on clothing during the draw, yet stand up to the abuse of hard operational and competition use. Night sights have two self-illuminating, Tritium inserts in the rear sight and one in the front blade to provide an easy-to-see, 3-dot sight picture in low-light conditions. Helps you acquire the sights and get on target quickly under stress. Works like a simple, 3-white-dot system for enhanced visibility in daylight. Nothing to turn on: as the ambient light gets lower, the Tritium dots start glowing. Available with either a Orange outline front sight or luminescent green outline front sight. The LumiGreen paint on the luminescent green outline will glow for approximately 10 minutes after light exposure.

Safety Instruction Guide for PRO GLO NIGHT SIGHTS SETS FOR GLOCK®

Introduction

Thank you for choosing the PRO GLO NIGHT SIGHTS SETS FOR GLOCK®. This guide provides essential safety information and instructions to ensure the safe and effective use of your night sights. Please read this guide carefully before installation and use.

General Safety Guidelines

- Ensure that the product is suitable for your specific Glock model (Gen 14).
- Always handle firearms and accessories with care and follow all safety protocols.
- Keep the product out of reach of children and unauthorized users.
- Inspect the sights regularly for any signs of damage or wear.
- Do not use the product if you notice any defects or if it has been involved in a drop or impact.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Installation Safety:** Ensure that the firearm is unloaded before installing the sights.
- **Night Sight Usage:** The Tritium inserts provide illumination in lowlight conditions. Do not rely solely on the night sights in complete darkness.
- **Visibility:** The orange outline front sight and luminescent green outline sight are designed for enhanced visibility. Ensure that your sight picture is clear before taking aim.
- **Environmental Considerations:** Avoid exposing the sights to extreme temperatures or harsh chemicals, as this may affect performance.
- **User Responsibility:** Always be aware of your surroundings and ensure a safe shooting environment.

Instructions for Installation and Usage

1. Installation Steps:

- Ensure that your Glock is unloaded and pointed in a safe direction.
- Remove the factory sights using a sight pusher or appropriate tool.
- Align the new PRO GLO NIGHT SIGHTS with the rear sight dovetail and press into place.
- Secure the front sight in the dovetail slot and ensure it is properly seated.
- Doublecheck alignment and ensure the sights are secure before use.

2. Usage Instructions:

- Practice acquiring the sights in various lighting conditions to become familiar with their function.
- In lowlight situations, rely on the Tritium inserts to assist in sight alignment.
- Maintain a consistent grip and stance to ensure accuracy when using the sights.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- If the Tritium inserts are damaged, contact a professional for proper disposal methods.

Contact Information for Further Support

For any inquiries regarding safety or product performance, please reach out to the manufacturer or your point of purchase. Ensure that you have your product details and any relevant information ready for assistance.
