

# GRAND MASTER CONNECTOR KIT FOR GEN 5 GLOCK™ - TTI GRAND MASTER CONNECTOR KIT, GEN 5

[Handgun Parts](#) > [Trigger Group Parts](#) > [Connector Parts](#)

The Taran Tactical Innovations Grand Master Connector Kit for Gen 5 Glocks is a great way to easily upgrade the trigger feel you desire out of your striker fired handgun. Glock's advertised 5.5lb trigger pull measures out at 7-7.75lbs on average. The Grand Master Connector Kit brings down the trigger pull to 3-5lb! (Varies from Glock to Glock). This trigger package will provide one of the lightest, smoothest, and cleanest trigger breaks you'll ever put into your Glock. Made from extremely hard SAE 1075 Heat-Treated Tool-Steel, highly polished, and the only connector that is electroless nickel plated ( MIL-C-26074E Military Standard ). This process achieves a light, clean smooth break with specially designed chrome silicone springs to remove some of the take-up and add a faster reset while reducing brittleness. Top shooters from around the world attest to the superiority and competitive excellence brought by the Grand Master connector kit. 1x TTI GM Electroless Connector. 1x TTI Reduced power Striker Spring (Only for Competition Version) 1x TTI Trigger-return Springs. 1x TTI Reduced Power-Plunger Spring. 1x TTI Stainless Steel Rear Trigger Pin. Taran Tactical recommends that you go to a certified gunsmith or Glock armorer for installation.
