# Safety Instruction Guide for the Ultimate Safety Plunger for Large Frame Glock

## Introduction

Thank you for choosing the Apex Ultimate Safety Plunger for Large Frame Glocks. This product is designed to enhance the performance of your Glock pistol while maintaining safety standards. Please read this safety instruction guide carefully to ensure proper use and installation.

## General Safety Guidelines

- Ensure that the product is used only in the specified Glock models: G21, G30, G36, G37, G38, G39, and G41, Gen 2, Gen 3, and Gen 4.
- Always handle firearms with caution and follow standard safety practices.
- Keep the product and all firearm components out of reach of children and unauthorized users.
- Regularly check for any updates or recalls regarding the product on the EU's Safety Gate platform.
- Report any unsafe products or accidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Before installation, ensure that the firearm is unloaded and the chamber is clear.
- Do not use the Ultimate Safety Plunger if it shows signs of damage or wear.
- Ensure that the installation area is clean and free from debris to prevent contamination during installation.
- Do not modify the Ultimate Safety Plunger or any other firearm components beyond the manufacturer's recommendations.
- Always conduct a function check after installation to ensure proper operation.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather the necessary tools for installation, including a punch tool and a small hammer.
- Ensure that you are working in a welllit and clean environment.

### 2. Disassembly of the Firearm:

- Unload the firearm completely.
- Remove the slide from the frame according to the manufacturer's instructions.

### 3. Removing the Factory Safety Plunger:

- Locate the factory safety plunger in the trigger assembly.
- Use the punch tool to carefully push out the factory safety plunger, taking care not to damage surrounding components.

### 4. Installing the Apex Ultimate Safety Plunger:

- Insert the Apex Ultimate Safety Plunger into the same position from which the factory plunger was removed.
- Use the punch tool to secure the plunger in place, ensuring it is seated properly.

### 5. Reassembly of the Firearm:

- Reattach the slide to the frame according to the manufacturer's instructions.
- Conduct a function check to ensure that the trigger operates smoothly and that the safety features are functioning correctly.

#### **6. Testing:**

- After installation, perform a dry fire test to confirm that the trigger takeup is smooth and that the safety functions are intact.
- If any issues arise during testing, consult a qualified gunsmith for assistance.

## **Disposal Instructions**

- Dispose of any old or unused safety plungers in accordance with local regulations.
- Do not throw the product in regular household waste. Instead, check with local authorities for proper disposal methods.

## **Contact Information for Further Support**

For further support regarding the installation and use of the Apex Ultimate Safety Plunger for Large Frame Glock, please refer to the manufacturer's website or contact their customer service for assistance.

By following this safety instruction guide, you ensure not only your safety but also the proper functioning of your firearm. Always prioritize safety and compliance with the EU General Product Safety Regulation. Thank you for your attention to these important guidelines.
