At a glance: Shot-peened spring offers longer life than factory spring Reduces failure-to-feed issues Replaces old, broken mag springs Upgrade your Ruger® MK series magazines with aftermarket Ruger® magazine springs from TANDEMKROSS. Magazine springs wear and tear over time, reducing the performance of your magazines and resulting in failure-to-feed issues. Don't let an underperforming or missing spring derail a shooting sports competition or day at the range! The new "Green Springs" for Ruger® MK Series are shot-peened for a significantly longer life than the factory spring. The upgraded magazine springs reduce failure-to-feed issues and are an ideal replacement for your old, broken magazine springs. Sold in 3-packs, "Green Springs" are an ideal upgrade to keep in your range bag for easy maintenance on the go. The dark green color of the magazine springs is a simple way to show your #TANDEMIZED pride and keep your upgraded springs separate from factory springs. ## Introduction

Thank you for choosing "GREEN SPRINGS" Magazine Springs for your Ruger™ MK Series firearms. This guide provides essential safety information and instructions to ensure the safe use and maintenance of your magazine springs. Please read this guide carefully before use.

## General Safety Guidelines

- **Product Safety:** Ensure that all nonfood products, including magazine springs, are used safely and according to the manufacturer's instructions.
- **Enhanced Recalls:** Be aware of standardized recall notices. If any safety issues arise, remedies will be provided at no charge.
- **Online Shopping:** When purchasing online, ensure that the seller meets safety requirements similar to those of physical stores.
- **Special Consumer Focus:** Extra precautions should be taken when using this product around children and vulnerable individuals.
- **EU Contact Point:** For safety inquiries, refer to the designated EU contact point for this product.
- **Rapid Alerts:** Stay informed about any updates on unsafe products through the Safety Gate system.

## Specific Safety Precautions for Use

- **Inspect Before Use:** Always inspect your magazine springs for any signs of damage or wear before use. Do not use damaged springs.
- **Avoid Overloading:** Do not exceed the recommended capacity of your magazine as specified by the manufacturer.
- **Store Safely:** Keep magazine springs out of reach of children and store them in a dry, cool place to prevent damage.
- **Use Properly:** Only use the "GREEN SPRINGS" with compatible Ruger™ MK Series models as specified in the product description.
- **Regular Maintenance:** Regularly check and replace worn springs to prevent malfunctions.

## Instructions for Installation and Usage

1. **Preparation:** Ensure that your firearm is unloaded and pointed in a safe direction before beginning the installation process.
2. **Remove Old Springs:** Carefully remove the old magazine springs from your Ruger™ MK Series magazines.
3. **Install New Springs:**
  - Take the "GREEN SPRINGS" from the package.
  - Insert the new spring into the magazine, ensuring it is seated properly.
4. **Test Functionality:** After installation, test the magazine to ensure it functions correctly and does not cause any failure to feed issues.
5. **Regular Checks:** Periodically check the installation of the springs to ensure they remain secure and functional.

## Disposal Instructions

- **Environmental Responsibility:** Dispose of old or damaged magazine springs in accordance with local regulations.
- **Recycling:** If possible, recycle materials according to local recycling guidelines to minimize

environmental impact.
