At a glance: Plunger & spring match factory specs for ideal fit Stainless steel plunger boosts durability Never let a lost or broken part derail a competition or day at the range There's nothing quite as frustrating as working on or cleaning your firearm and losing an important spring or plunger. If you've removed your Smith & Wesson® M&P® 15-22 extractor or replaced it with a TANDEMKROSS "Eagle's Talon" Extractor for M&P® 15-22 then you know how easy it is to lose track of the small extractor spring and plunger. Don't let a lost or broken spring or plunger derail a competition or day at the range again! Stock up on the new TANDEMKROSS replacement spring and plunger for the M&P® 15-22 extractor and always have the spare parts you need on hand.

Safety Instruction Guide for Extractor Plunger and Spring Replacement for S&W M&P 1522

Introduction

Thank you for choosing the Extractor Plunger and Spring Replacement for your Smith & Wesson® M&P® 1522. This product is designed to enhance the performance of your firearm while ensuring safety during use. Please read this safety instruction guide carefully to understand how to use the product safely and effectively.

General Safety Guidelines

- Always handle firearms with care and ensure they are unloaded when performing maintenance or repairs.
- Ensure that all components are compatible with your specific firearm model.
- Store all parts in a secure location, out of reach of children and unauthorized users.
- Regularly inspect your firearm and its components for wear and damage.
- Report any unsafe products or accidents to the relevant authorities.

Specific Safety Precautions for Use

- Only use the replacement plunger and spring with the Smith & Wesson® M&P® 1522 model.
- Ensure that you are in a safe environment when installing or handling firearm components.
- Wear safety glasses to protect your eyes from potential flying parts during installation.
- If you are unsure about the installation process, seek assistance from a qualified gunsmith.

Instructions for Installation and Usage

1. Preparation:

- Ensure your firearm is completely unloaded.
- Gather all necessary tools for installation, including a small screwdriver and a clean workspace.

2. Removal of Old Components:

- Carefully remove the existing extractor plunger and spring from your firearm.
- Inspect the removed parts for any signs of damage or wear.

3. Installation of New Components:

- Take the new extractor plunger and spring from the TANDEMROSS package.
- Insert the new spring into the extractor housing, ensuring it is seated properly.
- Carefully place the new plunger into the housing over the spring.
- Confirm that both components are securely in place.

4. Final Checks:

- Doublecheck that all parts are correctly installed and that there are no loose components.
- Perform a safety check on your firearm before using it.

Disposal Instructions

- Dispose of old components in accordance with local regulations.
- If the product becomes damaged or unusable, follow local guidelines for the disposal of metal and plastic materials.

Contact Information for Further Support

For any inquiries or concerns regarding the safety and use of this product, please reach out to the appropriate support channels provided by the manufacturer.

By following these guidelines, you can ensure the safe and effective use of your Extractor Plunger and Spring Replacement for the Smith & Wesson® M&P® 1522. Thank you for prioritizing safety and compliance with EU General Product Safety Regulations.
