A 4-Piece Armorer's Tool Set Designed for Use on the AR-15

Anyone who builds AR-15s understands that there are certain elements in a lower-receiver build that are made much easier through the use of specialized tools. Obsidian Arms offers the definitive, must-have punch kit for AR building with this Armorer's Specialty 4-Piece Tool Set. Included in this Armorer's Specialty Tool Set are a 3/32 flat-sided punch that aids in the installation of the bolt-catch pin, a Delrin punch for starting hammer and trigger pins, a drift pin for positioning the trigger and hammer, and a pivot-pin detent tool. All of the punches included in this tool set are made from 4140 alloy steel and have been heat-treated and QPQ-finished for enhanced durability. The tools are covered by Obsidian Arms' lifetime warranty, so if you ever break any of their tools, the company will replace the tool at no charge. QPQ finish Limited Lifetime Manufacturer Warranty Made in the USA

Safety Instruction Guide for AR15 Armorer's Specialty 4Piece Tool Set

Introduction

Thank you for choosing the AR15 Armorer's Specialty 4Piece Tool Set by Obsidian Arms. This tool set is designed for individuals who build AR15 rifles and require specialized tools for efficient assembly and maintenance. Please read this safety instruction guide carefully to ensure safe and effective use of the tools.

General Safety Guidelines

- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when using the tools.
- Keep the work area clean and welllit to avoid accidents.
- Ensure that the tools are used for their intended purpose only.
- Store the tools in a safe place, out of reach of children and pets.
- Regularly inspect tools for any signs of wear or damage before use.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- **FlatSided Punch:** When using the 3/32 flatsided punch, ensure that your hands are clear of the striking area to avoid injury.
- **Delrin Punch:** Use the Delrin punch gently to start hammer and trigger pins. Excessive force may cause damage to the punch or the firearm components.
- **Drift Pin:** When positioning the trigger and hammer with the drift pin, maintain a firm grip on the tool to prevent slipping.
- **PivotPin Detent Tool:** Always use the pivotpin detent tool with caution to avoid damaging the detent spring or pin.
- Do not use any of the tools if they are damaged or worn. Replace them immediately.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and components before starting your build.
- Ensure the workspace is clean and organized.

2. Using the 3/32 FlatSided Punch:

- Position the punch over the boltcatch pin.
- Gently tap the punch with a hammer until the pin is seated properly.

3. Using the Delrin Punch:

- Align the hammer or trigger pin with the respective holes.
- Use the Delrin punch to start the pins by tapping gently.

4. Using the Drift Pin:

- Place the drift pin in the hole of the trigger or hammer.
- Tap gently to ensure proper alignment.

5. Using the PivotPin Detent Tool:

- Insert the tool into the pivotpin detent hole.
- Apply gentle pressure to position the detent spring and pin correctly.

6. PostUse Care:

- Clean the tools after use to prevent rust and maintain their condition.
- Store the tools in a designated case or area to avoid loss or damage.

Disposal Instructions

- Dispose of any damaged tools in accordance with local regulations.
- Do not throw tools in regular household waste. Check for recycling options in your area.

Contact Information for Further Support

For any inquiries regarding safety, product usage, or warranty claims, please refer to the manufacturer's contact information provided with your product packaging.

Thank you for following these safety guidelines. Your safety and satisfaction are our top priorities. Enjoy your AR15 building experience!
