RISE ARMAMENT HIGH PERFORMANCE TRIGGERS FOR AR-15 The accuracy-enhancing RISE Armament RA-434 High-Performance Trigger uniquely combines smoothness and speed for a serious upgrade in performance. The RA-434 HPT is a premium trigger available at a mid-range cost. The single-stage trigger system helps you shoot more accurately with less effort. It is ultra smooth to the break with a crisp, clean release. The quick reset and low overtravel allows for serious speed. Meanwhile, the friction-reducing premium nickel boron coating on interior parts allows for smoother contact surfaces. Lastly, a straight trigger blade allows for enhanced control and lighter-feeling pull weight. Speaking of which, the lightened trigger calls for a 3.5-pound pull weight. The RA-434 fits most .308 and .223 AR-style platforms and includes free anti-walk pins. **FEATURES** Single-stage trigger system Helps you shoot more accurately with less effort Ultra smooth to the break with a crisp, clean release Quick reset and low overtravel for serious speed Friction-reducing premium nickel boron coating on interior parts for smoother contact surfaces Lightened trigger pull (3.5-lb. pull weight) Lightened hammer Straight trigger blade for enhanced control and lighter-feeling pull weight Drop safety feature Self-contained design makes it easy and quick to install with no fine-tuning needed Unit weight: 2.4 oz. Any attempts to modify the trigger will void the warranty.

There are tons of great aftermarket AR-15 triggers out there, including many high-end option that cost a pretty penny. While those triggers offer huge benefits, not many blue-collar shooters can afford to drop big cash on those designs. Instead, they can turn to RISE Armament, a company that offers its AR-15 High-Performance Trigger at a lower cost compared to other aftermarket designs. Though consumers won't be spending a ton of cash for the RISE Armament AR-15 High-Performance Trigger, they'll be getting a ton of enhanced performance out of the single-stage design, as the design is built to offer a crisp, clean break with a short reset and overtravel. The trigger comes factor-set for a pull weight of 3.5 pounds. Both straight and curved trigger shoes are available, and the contact surfaces on the interior of the unit are nickel-boron treated for a smooth, consistent pull with every trigger press. And now the Rise Armament High-Performance Triggers include Anti-Walk Trigger Pins with each trigger.
