Mount a Scout Style Light in the Perfect Position

Designed especially for the M300 and M600 Surefire Scout lights, the Arisaka Offset Scout Mount for KeyMod is perfect for mounting a light at the 45-degree position. The mount is also compatible with the Arisaka 300 and 600 series lights as well as the Streamlight Protac Rail Mount 1, 2, and HL-X lights. The mount replaces the factory Picatinny adaptor with a low profile offset mounting option. The Arisaka Offset Scout Mount uses BMC's patented inverted KeyMod screws to keep the mount to a very manageable 0.20" thick. Color: Black Fits: KeyMod 6061 T-6 Aluminum construction Length: 1.265" Weight: 0.4 oz The ultra slim Offset Scout Mount also features three lateral positions that allow up to a 0.24" mounting position from the center of the mount to clear accessories or back up iron sights.

Safety Instruction Guide for the Arisaka Offset Scout Mount

Introduction

Thank you for choosing the Arisaka Offset Scout Mount. This guide provides essential safety information and instructions for the proper use and installation of the mount. It is important to follow these guidelines to ensure safe operation and to maximize the performance of your product.

General Safety Guidelines

- Ensure that the mount is compatible with your light model before installation.
- Inspect the mount for any damage or defects before use. Do not use if damaged.
- Keep the mount out of reach of children and vulnerable individuals.
- Regularly check the mount for secure attachment and integrity.
- Store the mount in a dry, cool place when not in use to prevent corrosion.

Specific Safety Precautions for Use

- Always follow the manufacturer's instructions for mounting and using the light.
- Do not exceed the maximum weight limit of the mount.
- Avoid using the mount in extreme weather conditions unless specified.
- Ensure that all screws and attachments are tightened securely before use.
- Be aware of your surroundings when using the mounted light to prevent accidents.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools for installation, including a screwdriver.
- Ensure you have the correct light model compatible with the Arisaka Offset Scout Mount.

2. Installation Steps

- Remove the factory Picatinny adaptor from your light.
- Align the Arisaka Offset Scout Mount with the KeyMod slots on your rail system.
- Insert the inverted KeyMod screws through the mount and into the KeyMod slots.
- Tighten the screws securely, ensuring that the mount is stable and does not move.

3. Mounting the Light

- Attach your light to the mount by following the specific instructions for your light model.
- Adjust the light to the desired angle, ensuring it is securely fastened.

4. PostInstallation Check

- After installation, check the mount and light for secure attachment.
- Test the light to ensure it operates correctly in the mounted position.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- If the product is no longer usable, consider recycling materials where possible.

- Do not dispose of the product in household waste.

Contact Information for Further Support

For any inquiries regarding safety or product issues, please refer to the manufacturer's contact information provided with your product packaging or visit the official website.

Conclusion

By following these safety guidelines and instructions, you can ensure the safe and effective use of the Arisaka Offset Scout Mount. Regular maintenance and checks will help prolong the life of your mount and enhance your overall experience. Thank you for your attention to safety.
