For decades, customers have been asking Wilson Combat for their advice on a practical cleaning kit with everything you need in one place to properly clean your handgun without harming it in the process. After a few years of trying various combinations of “off-the shelf” cleaning kits, Bill Wilson himself has developed this comprehensive kit. The Wilson Combat Handgun Cleaning Kit comes complete with rod, brushes, patches and jags for 9mm/.40 and .45 caliber. This kit also comes with Wilson Combat Ultima Lube II oil and Universal Bore Cleaner. Each kit contains specially selected tools like a 1911 bushing wrench and polymer channel cleaning tool designed to clean the slide/frame grooves and crevices of your pistol. The perfectly sized chamber, magwell, and a combination firing pin tunnel/extractor tunnel brush are also been provided and are essential to keeping pistols running smoothly, even after high round count range sessions. Packed in a handy clear storage case, the Wilson Combat Handgun Cleaning kit will quickly earn a spot on your bench and makes a great gift for shooters of calibers from .380 to .45 ACP. This kit is perfect for everyone-- from the novice to the seasoned competitor-- since all shooters know you can't have enough quality cleaning products. Pro Tip- For best results soak fouled areas with Wilson Combat Universal Bore Cleaner to start to remove bullet and powder fouling from your bore and caked-on areas. After a 3-5 minute soak using a mop on the inside of your bore, on your breech, slide tunnel and inside your pistol's recesses use nylon bore brushes and other supplied brushes along with the channel tool and patches to lift and wipe off the heaviest fouling. Finish with dry cotton patches on the slotted rod tip in your bore to wipe out the excess cleaner. Use the supplied Ultima lube II oil for final lubrication of all wear areas. Your goal when cleaning is not to get your handgun surgically clean, but clean enough to maintain perfect reliability. We have seen many guns sent in by customers over the years that have been harmed by overzealous cleaning. Handgun kit contents: 1911 nylon bushing wrench Universal handle (works with rod & chamber brush) Brass rod Bore brush 9mm/.40 (nylon) Bore brush .45 (nylon) Chamber brush 9mm/.40 (nylon) Chamber brush .45 (nylon) 1911 extractor/firing pinhole brush Magazine well brush Bore mop 9mm/.40 Bore mop .45 Cleaning patch slotted tip Channel tool Universal toothbrush 2oz Ultima-Lube oil 2oz Ultima-Lube Universal Bore Cleaner 30 cotton patches Packaged in plastic divider box WARNING: This product can expose you to chemicals including petroleum products, which are known to the State of California to cause cancer and reproductive harm. Wilson Combat Handgun Cleaning Kit Safety Instructions

Introduction

Thank you for choosing the Wilson Combat Handgun Cleaning Kit. This kit is designed to help you maintain your handgun effectively and safely. Please read this safety instruction guide carefully to ensure safe use and proper maintenance of your firearm.

General Safety Guidelines

- Always handle your handgun with care and ensure it is unloaded before cleaning.
- Keep the cleaning kit out of reach of children and pets to prevent accidental injury.
- Use the cleaning products in a wellventilated area to avoid inhalation of fumes.
- Always wear protective eyewear when using cleaning solvents or oils.
- Dispose of used cleaning patches and materials properly to minimize environmental impact.
- Report any unsafe products or accidents to local authorities immediately.
- Stay informed about product recalls by checking the EU's Safety Gate platform regularly.

Specific Safety Precautions for Use

- **Chemical Exposure:** The cleaning kit contains chemicals, including petroleum products, which may cause cancer or reproductive harm. Always follow the instructions on the labels of each product.
- **Avoid Overzealous Cleaning:** Excessive cleaning can harm your handgun. Clean only as necessary to maintain reliability.
- **Use Proper Tools:** Always use the tools provided in the kit for their intended purposes. Using incorrect tools can lead to damage or injury.
- **Proper Lubrication:** Use the supplied Ultima Lube II oil for final lubrication of all wear areas to prevent damage from friction.

Instructions for Installation and Usage

1. Preparation:

- Ensure your handgun is unloaded and in a safe position.
- Gather all tools and materials from the cleaning kit.

2. Cleaning Process:

- Soak fouled areas with Wilson Combat Universal Bore Cleaner for 35 minutes.
- Use the bore brush (9mm/.40 or .45) to scrub the inside of the bore, breech, and slide tunnel.
- Utilize the channel tool and patches to clean the slide/frame grooves and recesses.
- After cleaning, use dry cotton patches on the slotted rod tip to remove excess cleaner from the bore.
- Apply Ultima Lube II oil to all wear areas for lubrication.

3. PostCleaning:

- Inspect your handgun to ensure all cleaning materials have been removed.
- Store the cleaning kit in its clear storage case to protect the tools and products.

Disposal Instructions

- Dispose of used cleaning patches and materials in accordance with local regulations.
- Do not pour cleaning solvents or oils down the drain. Instead, follow local disposal guidelines for hazardous materials.
- Ensure that the cleaning kit is stored in a safe location and that any unused products are disposed of properly after their expiration date.

Contact Information for Further Support

For any questions or concerns regarding the Wilson Combat Handgun Cleaning Kit, please refer to the manufacturer's website or customer service resources for assistance. Always ensure that you are following the latest safety guidelines and product information.

Thank you for your attention to these safety instructions. Enjoy using your Wilson Combat Handgun Cleaning Kit responsibly and safely.
