

SPLINE DRIVE BREECH LOCK BUSHINGS - LEE PRECISION SPLINE DRIVE BREECH LOCK BUSHING 3 PACK

[Reloading](#) > [Reloading Dies](#) > [Replacement Parts & Upgrades](#)

SPLINE DRIVE BREECH LOCK BUSHINGS Spline Drive Breech Lock Bushings 4 pack. New, easy grip splined drive surface allows easy, accurate and fast die installation in your press. Reloading dies are confusingly similar looking, so we anodized and colored the bushings so you can “color code” your dies for quick positive identification. No need for lock rings on your dies with these quick-change bushings. Simply lightly tighten the clamp screw, and split collar will put a vise lock on your die. Loosen the screw, and the die will spin freely. Once set you’ll never lose position. They look so good and work so well, you’ll want them for all your dies.

Safety Instruction Guide for SPLINE DRIVE BREECH LOCK BUSHINGS

Introduction

Thank you for choosing the SPLINE DRIVE BREECH LOCK BUSHINGS by LEE PRECISION. This guide provides essential safety instructions to ensure the safe and effective use of the product. Please read and follow these guidelines carefully to avoid potential hazards and ensure a smooth reloading experience.

General Safety Guidelines

- Always ensure that the work area is clean and welllit before using the bushings.
- Keep the bushings out of reach of children and pets.
- Inspect the bushings for any signs of damage or wear before use. Do not use damaged products.
- Use the bushings only for their intended purpose as described in this guide.
- Ensure that all components of your reloading setup are compatible with the bushings.
- If you experience any difficulties or uncertainties during installation or use, seek assistance or consult a professional.

Specific Safety Precautions for Use

- Do not overtighten the clamp screw, as this may damage the bushing or the die.
- Always ensure that the die is securely locked in place before operating your reloading press.
- Avoid placing fingers or other body parts near moving parts during operation.
- Use protective eyewear when reloading to safeguard against potential debris.
- If you notice any unusual sounds or resistance while using the bushing, stop immediately and check for obstructions or malfunctions.

Instructions for Installation and Usage

1. Installation:

- Begin by selecting the appropriate bushing for your die.
- Insert the bushing into the die slot of your reloading press.
- Lightly tighten the clamp screw to secure the bushing in place. Ensure that the split collar engages properly to lock the die.
- Confirm that the die is positioned correctly and does not move when the screw is tightened.

2. Usage:

- Once the die is installed, you can proceed with your reloading process.
- To change dies, simply loosen the clamp screw, allowing the die to spin freely.
- Replace the die as needed and repeat the installation steps to secure it in place.

3. PostUsage Care:

- After use, clean the bushings and dies to remove any debris or residue.
- Store the bushings in a dry place, away from moisture and extreme temperatures.

Disposal Instructions

- Dispose of any damaged or unusable bushings in accordance with local regulations for electronic waste or metal products.

- Do not dispose of the bushings in regular household waste. Check with local authorities for proper disposal methods.

Contact Information for Further Support

For any inquiries or support regarding the SPLINE DRIVE BREECH LOCK BUSHINGS, please reach out to the manufacturer or refer to the official website for additional resources.

By following these safety guidelines and instructions, you can ensure a safe and enjoyable reloading experience with your SPLINE DRIVE BREECH LOCK BUSHINGS. Thank you for your attention to safety, and happy reloading!
