

# SPLINE DRIVE BREECH LOCK BUSHINGS - LEE PRECISION SPLINE DRIVE BREECH LOCK BUSHING 4 PACK

[Reloading](#) > [Reloading Dies](#) > [Replacement Parts & Upgrades](#)

SPLINE DRIVE BREECH LOCK BUSHINGS Spline Drive Breech Lock Bushings 4 pack. New, easy grip splined drive surface allows easy, accurate and fast die installation in your press. Reloading dies are confusingly similar looking, so we anodized and colored the bushings so you can "color code" your dies for quick positive identification. No need for lock rings on your dies with these quick-change bushings. Simply lightly tighten the clamp screw, and split collar will put a vise lock on your die. Loosen the screw, and the die will spin freely. Once set you'll never lose position. They look so good and work so well, you'll want them for all your dies.

# SPLINE DRIVE BREECH LOCK BUSHINGS SAFETY INSTRUCTION GUIDE

## Introduction

Thank you for choosing the SPLINE DRIVE BREECH LOCK BUSHINGS from LEE PRECISION. This guide provides essential safety instructions and usage information to ensure your experience with our product is safe and effective. Please read this guide carefully before using the bushings.

## General Safety Guidelines

- Always handle the bushings with care to prevent damage and ensure safe operation.
- Ensure the bushings are compatible with your reloading dies and press before use.
- Keep the bushings away from children and vulnerable individuals to prevent accidents.
- Regularly inspect the bushings for wear or damage before each use.
- Report any unsafe conditions or accidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Use the bushings only for their intended purpose in reloading applications.
- Do not exceed the recommended torque when tightening the clamp screw to avoid damaging the bushing or the die.
- Ensure that the split collar is properly secured before using the reloading die to prevent it from loosening during operation.
- Avoid using the bushings in wet or damp conditions to prevent slippage or corrosion.
- If you notice any unusual sounds or performance issues while using the bushings, stop using them immediately and inspect for damage.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure your reloading press is clean and free from debris.
- Gather your reloading die and SPLINE DRIVE BREECH LOCK BUSHING.

### 2. Installing the Bushing:

- Insert the bushing into the reloading die.
- Align the bushing so that it fits snugly in the die.
- Lightly tighten the clamp screw to secure the bushing in place. Do not overtighten.

### 3. Using the Die:

- Insert the die with the attached bushing into the reloading press.
- Ensure the die is properly seated and locked in the press.
- To adjust the die position, simply loosen the clamp screw. The die will spin freely for easy adjustment.

### 4. Finalizing Setup:

- Once you have the desired position, lightly tighten the clamp screw again to secure the die in place.
- Confirm that the split collar is locked to prevent any movement during operation.

## **Disposal Instructions**

- Dispose of any damaged or worn bushings responsibly.
- Follow local regulations for the disposal of metal parts.
- Do not dispose of the bushings in regular household waste if they are damaged or contain hazardous materials.

## **Contact Information for Further Support**

For any questions or concerns regarding the SPLINE DRIVE BREECH LOCK BUSHINGS, please refer to the contact information provided on the packaging or visit the official LEE PRECISION website for further assistance.

Thank you for your attention to these safety instructions. Your safety is our priority. Enjoy using your SPLINE DRIVE BREECH LOCK BUSHINGS!
