BREECH LOCK UPDATE KIT LEE PRECISION Safety Instruction Guide

Introduction

Thank you for purchasing the Breech Lock Update Kit by Lee Precision. This kit allows you to convert your reloading press to utilize Lee's Breech Lock quickchange bushing feature. This guide provides essential safety instructions and information to ensure the safe use of this product. Please read this guide carefully before installation and use.

General Safety Guidelines

- Ensure the product is used only for its intended purpose as outlined in this guide.
- Always handle reloading equipment with care and follow all safety procedures.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect your equipment for any signs of wear or damage.
- Report any unsafe conditions or incidents to the relevant authorities.
- Stay informed about product recalls and safety updates through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Before installation, ensure that your press is unplugged or disconnected from any power source.
- Verify that your removable press bushing/adaptor size is compatible with the kit (1 1/4"12 or 1 1/2"12).
- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling reloading materials.
- Do not exceed the manufacturer's recommended load limits when using the press.
- Follow all manufacturer instructions for the safe operation of your reloading press.
- Avoid distractions while using the equipment to maintain focus and prevent accidents.

Instructions for Installation and Usage

Installation Steps

1. Preparation

- Gather all necessary tools, including a locking wrench.
- Ensure your workspace is clean and organized.

2. Remove Existing Components

- Disconnect the press from its power source (if applicable).
- Remove the existing bushing/adaptor from your press, ensuring no debris is left behind.

3. Install Breech Lock Adapter

- Select the appropriate Breech Lock adapter (1 1/4"12 or 1 1/2"12) based on your press model.
- Insert the new adapter into the press, ensuring it fits securely.

4. Secure the Adapter

- Use the spline drive locking eliminator to secure the adapter in place.
- Tighten the locking using the locking wrench to ensure a firm fit.

5. Final Checks

- Inspect the installation to ensure everything is secure and properly aligned.
- Reconnect the press to its power source (if applicable) and conduct a test run without any reloading materials to ensure proper operation.

Usage Instructions

- Follow the specific operating procedures for your reloading press as provided by the manufacturer.
- Always check that the Breech Lock adapter is securely installed before starting any reloading operation.
- Use the quickchange bushing feature as intended, ensuring you do not force any components.
- After use, clean the equipment thoroughly to maintain its condition and performance.

Disposal Instructions

- Dispose of any packaging materials in accordance with local waste management regulations.
- If any components of the kit become damaged or unusable, follow your local guidelines for the disposal of electronic and mechanical waste.
- Do not dispose of the product in regular household waste unless it is confirmed safe to do so.

Contact Information for Further Support

For any inquiries regarding the Breech Lock Update Kit or safety concerns, please refer to the manufacturer's contact information provided with the product packaging. Always ensure that you have the latest updates and guidance related to product safety.

By following these safety instructions, you can ensure safe and effective use of your Breech Lock Update Kit. Thank you for choosing Lee Precision, and happy reloading!
