

# PRO 4000 PRESS KITS - LEE PRECISION 45 ACP PRO 4000 PRESS KIT

[Reloading](#) > [Reloading Presses](#) > [Progressive Presses](#)

A true progressive press for less than the cost of a premium single stage press. Includes Lee 3 die Carbide set, shell plate, Universal Case Feeder, Auto-Drum Powder Measure, Safety Prime, everything you need to start reloading. Easy to use with no adjustments. View quick start guide and product instructions. Modular construction allows as much or as little automation as the operator desires with no adjustments. Cartridge changeover in seconds, including primer size with no adjustments. Breech Lock quick change feature in all four positions with no adjustments. Exclusive auto case placer with no adjustments. Through ram primer disposal with convenient built-in primer disposal tube. Includes four colored spline drive breech lock bushings. Includes large and small priming arms. Includes ergonomic, wood grip roller handle. Others charge nearly \$50.00 for this comfort feature. Includes hex wrench for caliber changes with built in storage rack for tools. Others charge nearly \$30.00 for the tools and storage rack alone! User has to make initial die adjustment into the Breech Lock bushings. Once set, the Breech Lock system allows for instant change.

# PRO 4000 PRESS KIT Safety Instructions

## Introduction

Thank you for choosing the PRO 4000 PRESS KIT by Lee Precision. This progressive press is designed for efficient and userfriendly reloading of .45 ACP cartridges. To ensure safe operation and longevity of your product, please read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- Ensure that the press is used only for its intended purpose: reloading .45 ACP cartridges.
- Always wear appropriate personal protective equipment, including safety glasses and hearing protection.
- Keep the workspace clean and organized to avoid accidents.
- Store the press and all related components in a dry, secure location when not in use.
- Be aware of your surroundings and ensure that children and pets are kept at a safe distance while operating the press.
- Regularly inspect the press for any signs of wear or damage. Do not use if damaged.

## Specific Safety Precautions for Use

- **Hazard Identification:**

- Risk of injury from moving parts: Keep hands and loose clothing away from the press during operation.
- Risk of primer detonation: Handle primers with care and store them in a cool, dry place away from heat sources.
- Risk of powder ignition: Use only the recommended powders for reloading and follow the manufacturer's guidelines.

- **Avoiding Hazards:**

- Always ensure that the press is securely mounted to a stable work surface.
- Do not overload the press beyond its specified capacity.
- Avoid distractions while operating the press to maintain focus.
- Follow the quick start guide and product instructions carefully to ensure proper setup and operation.

## Instructions for Installation and Usage

### 1. Installation:

- Choose a stable and level work surface for mounting the press.
- Use the provided hardware to securely attach the press to the work surface.
- Ensure that the Universal Case Feeder and AutoDrum Powder Measure are properly installed according to the product instructions.

### 2. Setup:

- Insert the Lee 3 die Carbide set into the Breech Lock bushings, ensuring they are securely fastened.
- Adjust the Breech Lock system for your desired cartridge size. Refer to the quick start guide for detailed instructions.
- Load the Universal Case Feeder with empty cases and ensure proper alignment.

### 3. **Operation:**

- Follow the stepbystep instructions in the quick start guide for reloading cartridges.
- Monitor the operation continuously and stop immediately if any irregularities occur.
- Use the Safety Prime feature to ensure safe primer seating.

### 4. **PostOperation:**

- Clean the press after each use to prevent buildup of debris and ensure optimal performance.
- Store all components, including dies and tools, in the designated storage rack.

## **Disposal Instructions**

- Dispose of any unused or expired primers and powders according to local regulations.
- Recycle packaging materials where possible.
- Do not dispose of the press in general waste. Contact your local waste management facility for proper disposal methods.

## **Contact Information for Further Support**

For any safety inquiries or support regarding your PRO 4000 PRESS KIT, please refer to the official Lee Precision website or contact your local distributor.

By following these safety instructions, you can ensure a safe and enjoyable reloading experience with the PRO 4000 PRESS KIT. Always prioritize safety and adhere to the guidelines provided. Thank you for your commitment to safe reloading practices.
