

PRO 4000 PRESS KITS - LEE PRECISION 38 SPECIAL PRO 4000 PRESS KIT

[Reloading](#) > [Reloading Presses](#) > [Progressive Presses](#)

A true progressive press for less than the cost of a premium single stage press. Includes Lee 3 die Carbide set, shell plate, Universal Case Feeder, Auto-Drum Powder Measure, Safety Prime, everything you need to start reloading. Easy to use with no adjustments. View quick start guide and product instructions. Modular construction allows as much or as little automation as the operator desires with no adjustments. Cartridge changeover in seconds, including primer size with no adjustments. Breech Lock quick change feature in all four positions with no adjustments. Exclusive auto case placer with no adjustments. Through ram primer disposal with convenient built-in primer disposal tube. Includes four colored spline drive breech lock bushings. Includes large and small priming arms. Includes ergonomic, wood grip roller handle. Others charge nearly \$50.00 for this comfort feature. Includes hex wrench for caliber changes with built in storage rack for tools. Others charge nearly \$30.00 for the tools and storage rack alone! User has to make initial die adjustment into the Breech Lock bushings. Once set, the Breech Lock system allows for instant change.

Safety Instruction Guide for PRO 4000 PRESS KIT

Introduction

Thank you for choosing the PRO 4000 PRESS KIT by Lee Precision. This guide provides essential safety instructions and guidelines to ensure safe and effective use of the product. Please read this manual thoroughly before using the press kit to avoid any hazards and to ensure a safe reloading experience.

General Safety Guidelines

- Always read and understand the product manual before use.
- Keep the press kit out of the reach of children and vulnerable individuals.
- Use the press kit in a wellventilated area to avoid inhalation of any harmful particles.
- Wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when operating the press.
- Ensure that all components are correctly assembled and secured before use.
- Regularly inspect the press kit for any signs of damage or wear. Do not use if damaged.
- Follow all local laws and regulations regarding reloading ammunition.

Specific Safety Precautions for Use

- **Cartridge Safety:**
 - Only use cartridges that are compatible with the PRO 4000 PRESS KIT.
 - Always check that the cartridge is properly seated in the die before reloading.
- **Powder Handling:**
 - Use caution when handling gunpowder. Store it in a cool, dry place away from heat sources.
 - Do not exceed recommended powder loads as specified in reloading manuals.
- **Primer Safety:**
 - Handle primers with care to avoid accidental detonation.
 - Use the Safety Prime feature to minimize the risk when inserting primers.
- **Tool Maintenance:**
 - Keep tools clean and wellmaintained to ensure proper function and safety.
 - Use the hex wrench provided for caliber changes and store it securely after use.

Instructions for Installation and Usage

1. Assembly:

- Remove all components from the packaging.
- Assemble the press according to the instructions provided in the quick start guide.
- Ensure that the Breech Lock bushings are securely in place.

2. Setup:

- Install the shell plate and die set according to the caliber being reloaded.
- Connect the Universal Case Feeder and AutoDrum Powder Measure as per the manual.

3. Reloading Process:

- Set the initial die adjustment into the Breech Lock bushings.
- Load cases into the Universal Case Feeder.
- Start the reloading process by following the stepbystep instructions in the quick start guide.
- Monitor the operation continuously to ensure proper functioning.

4. Changing Calibers:

- When changing calibers, use the hex wrench to adjust the Breech Lock bushings.
- Follow the setup instructions for the new caliber to ensure proper assembly.

Disposal Instructions

- Dispose of any unused or expired components according to local regulations.
- Do not dispose of gunpowder or primers in regular trash. Contact local authorities for proper disposal methods.
- Recycle packaging materials where possible.

Contact Information for Further Support

For any inquiries or concerns regarding the PRO 4000 PRESS KIT, please refer to the EUbased contact point provided with your product packaging. You can also check for updates and safety alerts on the EU's Safety Gate platform.

Conclusion

By following these safety instructions, you can ensure a safe and efficient reloading experience with your PRO 4000 PRESS KIT. Always prioritize safety and adhere to local laws and regulations regarding ammunition reloading. Thank you for choosing Lee Precision!
