

# AUTOMATIC PROCESSING PRESS (APP) BULGE BUSTER KIT - LEE PRECISION AUTOMATIC PROCESSING PRESS (APP) BULGE BUSTER KIT

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

The Lee APP Bulge Buster Kit and the appropriate Lee Carbide Factory Crimp Die restores free function of rimless cases that have low base bulges. Low base bulges usually occur from chambers that do not fully support the cartridge or cases resized in carbide dies from manufacturers other than Lee. These show a noticeable stop ring near the base. You will most likely find cases with these problems in mixed range brass. The Lee Carbide Factory Crimp Die must be purchased separately. \*\*Will work with the following cases: 380 ACP, 10mm, 40 S&W, 41 AE (Use 40 S&W Factory Crimp Die), 45 ACP, 45 GAP, and 45 Win Mag.

# Safety Instruction Guide for the Lee Precision Automatic Processing Press (APP) Bulge Buster Kit

## Introduction

Thank you for choosing the Lee Precision Automatic Processing Press (APP) Bulge Buster Kit. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read the entire guide carefully before using the kit.

## General Safety Guidelines

- Ensure that the product is used only as intended and in accordance with the manufacturer's instructions.
- Always wear appropriate safety gear, including eye protection, when using this product.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage before use.
- Do not modify the product in any way, as this may compromise safety and performance.
- Report any unsafe products or accidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Do not use the Bulge Buster Kit with cases that are severely damaged or compromised.
- Ensure that the dies are securely fastened and properly aligned before operation.
- Avoid wearing loose clothing or jewelry that may get caught in the machinery.
- Handle all cartridges with care, following proper safety protocols for ammunition.
- Use the product only in a wellventilated area to avoid inhaling any dust or debris generated during operation.

## Instructions for Installation and Usage

### 1. Installation of the Bulge Buster Kit:

- Ensure that your Lee APP is set up correctly according to the manufacturer's instructions.
- Install the Lee Carbide Factory Crimp Die (sold separately) in the appropriate position on the press.
- Follow the specific instructions provided with the die for proper installation.

### 2. Using the Bulge Buster Kit:

- Inspect the cases for low base bulges before processing.
- Place the case in the die and ensure it is seated correctly.
- Operate the press smoothly, applying consistent pressure until the bulge is removed.
- Check the processed case to ensure it is free of bulges before proceeding to the next step.

### 3. PostUse Care:

- Clean the dies and press after each use to maintain optimal performance.
- Store the Bulge Buster Kit in a dry, secure location away from children.

## Disposal Instructions

- Dispose of any damaged or unusable components in accordance with local regulations.
- Do not dispose of the product in regular household waste. Instead, check for local recycling programs or

hazardous waste disposal options.

## **Contact Information for Further Support**

For any questions or concerns regarding the Lee Precision Automatic Processing Press (APP) Bulge Buster Kit, please refer to the manufacturer's website or contact their customer support for assistance.

Thank you for your attention to these safety guidelines. Your safety and satisfaction are our top priorities.
