

LEE COLLET 2-DIE NECK SIZER SETS - LEE PRECISION 300 HAM'R COLLET 2-DIE NECK SIZER SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

There is no loading system that will load more accurate ammunition than Lee Collet Dies. A collet squeezes the case neck against a precision mandrel for a perfect fit with minimum run-out. No lube case is needed. Cases last ten times longer, so the savings on only 35 cases will pay for the dies. Maximum accuracy is usually achieved by seating the bullet out far enough to touch or almost touch the rifling. This provides the shot start pressure normally supplied by the crimp. That's why a dead length bullet seater is included to complete the most accurate reloading system ever made. These dies size only the neck to preserve the perfect fit of fire forming. Only reload cases that have been fired in your gun. Not recommended for autoloaders, slide or lever action guns.

Safety Instruction Guide for LEE COLLET 2DIE NECK SIZER SET

Introduction

Thank you for choosing the LEE COLLET 2DIE NECK SIZER SET. This guide provides essential safety instructions and information to ensure safe and effective use of this product. Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure you are familiar with all safety guidelines before using the product.
- Always use the dies in accordance with the manufacturer's instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the dies regularly for wear or damage. Do not use if damaged.
- Report any unsafe conditions or incidents to the relevant authorities.

Specific Safety Precautions for Use

- Only use this die set with cases that have been fired in your specific firearm.
- Do not use the dies with autoloaders, slide, or lever action guns.
- Ensure that your workspace is clean and free from clutter to avoid accidents.
- Wear safety glasses to protect your eyes from potential debris during reloading.
- Use proper gloves to avoid injuries from sharp edges or small parts.
- Avoid distractions while reloading to maintain focus and precision.
- Store the dies in a secure location when not in use to prevent unauthorized access.

Instructions for Installation and Usage

1. Setup:

- Ensure your reloading press is securely mounted and stable.
- Insert the collet die into the press according to the manufacturer's instructions.
- Adjust the die to the desired setting for your specific cartridge.

2. Reloading:

- Clean the cases thoroughly before reloading.
- Insert the case into the die and apply pressure to size the neck.
- Use the dead length bullet seater to seat the bullet to the desired depth.
- Check for proper fit and alignment before proceeding.

3. PostReloading:

- Inspect each reloaded round for any defects or irregularities.
- Store reloaded ammunition in a cool, dry place, away from direct sunlight.
- Label your ammunition clearly to avoid confusion.

Disposal Instructions

- Dispose of any damaged or worn dies in accordance with local regulations.
- Do not dispose of reloaded ammunition or components in regular household waste.
- Follow local guidelines for the disposal of hazardous materials.

Contact Information for Further Support

For further assistance or inquiries regarding safety, please consult the manufacturer's website or customer service resources. They will provide you with the necessary information and support related to the LEE COLLET 2DIE NECK SIZER SET.

Thank you for your attention to these safety instructions. Your safety is our priority, and we wish you a successful reloading experience.
