DURAMAG has solved the geometry and durability problems of putting straight-walled, big-bore rounds in a magazine designed for smaller, tapered cartridges by simply not doing it. Unlike other stop-gap solutions such as after-market followers or springs, the DURAMAG .450 Bushmaster is a complete solution designed from the ground up to properly support the round in a magazine that fits into the AR15 magazine well. Until now the challenge has always been the magazine. While originally intended to fit a standard AR15 magazine, improper geometry and follower design has led to feeding issues and rifle malfunctions. Some home-remedies worked, but the unique stresses caused by this load typically deformed the magazine after just 10-20 cycles. Thousands of rounds from a single magazine of in-house and third-party testing by firearms manufacturers have confirmed DURAMAG is the answer. An advancement in magazine design and construction has made this possible. By creating a proprietary internal bracing system and laser-welding it into a 410 stainless-steel body, DURAMAG can control round stack and prevent misalignment when rounds attempt to double stack. DURAMAG's system also ensures the thousandth-round feeds just as reliably as the first. This .450 Bushmaster-unique development is in addition to the suite of technology DURAMAG fans have come to rely upon.

Safety Instruction Guide for AR15 Magazine 450 Bushmaster

Introduction

Thank you for choosing the AR15 Magazine 450 Bushmaster. This guide provides essential safety instructions to ensure the safe use and handling of your magazine. Please read this document carefully and keep it for future reference.

General Safety Guidelines

- Ensure the magazine is compatible with your firearm before use.
- Always handle firearms and ammunition with care and respect.
- Store the magazine in a secure location, away from children and unauthorized users.
- Regularly inspect the magazine for any signs of damage or wear.
- Follow all local laws and regulations regarding firearm accessories.

Specific Safety Precautions for Use

- Only use .450 Bushmaster cartridges with this magazine.
- Do not exceed the magazine's 5round capacity.
- Avoid using damaged or deformed magazines, as they may cause malfunctions.
- Ensure the magazine is properly seated in the firearm before attempting to fire.
- Keep fingers and other body parts clear of the ejection port and magazine well during loading and unloading.
- Always point the firearm in a safe direction when loading or unloading the magazine.

Instructions for Installation and Usage

1. Installation

- Ensure the firearm is unloaded and the safety is engaged.
- Align the magazine with the magazine well of the firearm.
- Push the magazine firmly into the well until it clicks into place.
- Verify that the magazine is securely locked in position.

2. Usage

- Load the magazine with .450 Bushmaster cartridges, ensuring they are seated correctly.
- Insert the loaded magazine into the firearm as described above.
- To remove the magazine, press the magazine release button and pull the magazine out of the well.
- After use, store the magazine in a safe and dry location.

Disposal Instructions

- Dispose of the magazine in accordance with local regulations for metal products.
- If the magazine is damaged or no longer usable, do not attempt to repair it. Instead, follow proper disposal methods to ensure safety.

Contact Information for Further Support

For any safety inquiries or concerns regarding the AR15 Magazine 450 Bushmaster, please consult the relevant

authorities or your retailer for assistance.

Important Notice: This safety instruction guide is designed to comply with the EU General Product Safety Regulation (GPSR). It is essential to follow these guidelines to ensure safe usage and handling of your product. Always stay informed about any safety recalls or updates through official channels.
