DURAMAG has solved the geometry and durability problems of putting straight-walled, big-bore rounds in a magazine designed for smaller, tapered cartridges by simply not doing it. Unlike other stop-gap solutions such as after-market followers or springs, the DURAMAG .450 Bushmaster is a complete solution designed from the ground up to properly support the round in a magazine that fits into the AR15 magazine well. Until now the challenge has always been the magazine. While originally intended to fit a standard AR15 magazine, improper geometry and follower design has led to feeding issues and rifle malfunctions. Some home-remedies worked, but the unique stresses caused by this load typically deformed the magazine after just 10-20 cycles. Thousands of rounds from a single magazine of in-house and third-party testing by firearms manufacturers have confirmed DURAMAG is the answer. An advancement in magazine design and construction has made this possible. By creating a proprietary internal bracing system and laser-welding it into a 410 stainless-steel body, DURAMAG can control round stack and prevent misalignment when rounds attempt to double stack. DURAMAG's system also ensures the thousandth-round feeds just as reliably as the first. This .450 Bushmaster-unique development is in addition to the suite of technology DURAMAG fans have come to rely upon.

Safety Instruction Guide for AR15 Magazine 450 Bushmaster

Introduction

Thank you for choosing the AR15 Magazine 450 Bushmaster. This guide provides essential safety instructions and guidelines to ensure safe and effective use of the product. Please read this document carefully before using the magazine.

General Safety Guidelines

- Ensure that the magazine is compatible with your firearm model and caliber.
- Always treat every firearm as if it is loaded.
- Keep the magazine out of reach of children and unauthorized users.
- Store the magazine in a cool, dry place away from direct sunlight and moisture.
- Regularly inspect the magazine for any signs of damage or wear before use.
- Follow all local laws and regulations regarding firearm and ammunition storage and use.

Specific Safety Precautions for Use

- Do not attempt to modify or alter the magazine in any way.
- Only use .450 Bushmaster ammunition in this magazine.
- Avoid using damaged or deformed magazines as they may cause feeding issues or malfunctions.
- Ensure that the magazine is properly seated in the magazine well before firing.
- Do not exceed the magazine's capacity of 7 rounds to prevent malfunctions.
- Be aware of your surroundings and ensure a safe shooting environment.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Align the magazine with the magazine well of the firearm.
- Firmly push the magazine into the magazine well until it clicks into place.

2. Usage:

- Load the magazine with .450 Bushmaster ammunition, ensuring each round is seated properly.
- Insert the loaded magazine into the firearm as described in the installation section.
- After firing, remove the magazine by pressing the magazine release button and pulling the magazine out of the well.
- Store the magazine securely when not in use.

Disposal Instructions

- Dispose of the magazine in accordance with local regulations.
- If the magazine is damaged or worn, do not attempt to repair it. Instead, dispose of it responsibly.
- Check with local waste management authorities for guidance on proper disposal methods.

Contact Information for Further Support

For any inquiries regarding safety or product information, please refer to the appropriate EU contact point for

assistance.

Conclusion

By following these safety instructions, you can help ensure a safe and enjoyable experience with your AR15 Magazine 450 Bushmaster. Always prioritize safety and stay informed about best practices in firearm handling and maintenance. Thank you for your attention to these important guidelines.
