

BSL ARM BRACE - MAGPUL BSL ARM BRACE BLACK

[Handgun Parts](#) > [Recoil Parts](#) > [Recoil Hardware](#)

A Purpose-Built Arm Brace for Your AR-Style Pistol

The Magpul BSL is an AR arm brace designed to improve the single-handed employment of large-format pistols. The BSL utilizes Magpul design and engineering to offer a stabilizing accessory with a robust feature set and trusted Magpul quality. With classic Magpul aesthetics, the BSL is compatible with Mil-Spec carbine receiver extensions and employs a simplified, durable, and easy to use LOP adjustment mechanism. An integrated QD cup and two M-LOK compatible slots provide ambidextrous sling mounting options and enable stabilizing sling tension to be applied, drastically increasing single-handed control of the firearm. With a straight-forward design and Magpul innovation, the BSL is a simple solution to improving your AR pistol. Final firearm configuration subject to applicable federal, state, and local laws. Designed and intended for use as a stabilizing accessory for one-handed firing. Toolless, single-handed LOP adjustment. Ambidextrous rear QD cup allows sling tension to be applied while firing with one hand to improve stability. Compatible with Mil-Spec carbine receiver extensions. High-strength polymer and metal construction. M-LOK compatible slots for additional sling mounting options. Mil-spec carbine receiver extension equipped AR Pistols. Not compatible with proprietary, pistol, or commercial receiver extensions. This product is designed and intended to be employed for lawful uses in accordance with all applicable laws and must be assembled into a legal configuration. The ATF has ruled that attaching stabilizing braces with certain features will not make a firearm NFA controlled. This product conforms to this ATF precedent. As of December 10, 2019, ATF is no longer issuing classification letters for firearm accessories, including stabilizing braces. This product is designed and intended to serve only as a forearm brace for one-handed firing of a pistol. It is not intended to be fired from the shoulder. Any redesign or reconfiguration of this product may render the attached firearm NFA controlled. The user is exclusively responsible for determining the correct application of state and federal law based on the unique configuration of each firearm.

BSL ARM BRACE MAGPUL Safety Instruction Guide

Introduction

Thank you for purchasing the BSL ARM BRACE MAGPUL. This product is designed to enhance the singlehanded operation of largeformat pistols. Please read this safety instruction guide carefully to ensure safe and effective use of the arm brace. Compliance with all applicable laws and regulations is crucial for responsible ownership.

General Safety Guidelines

- Ensure that the BSL ARM BRACE MAGPUL is used in accordance with local, state, and federal laws.
- Always treat firearms as if they are loaded, even if you believe they are not.
- Keep the firearm pointed in a safe direction at all times.
- Store the firearm and arm brace securely to prevent unauthorized access, especially by children.
- Regularly inspect the arm brace for wear or damage before each use.
- If you experience any issues with the arm brace or firearm, cease use immediately and consult a qualified gunsmith.

Specific Safety Precautions for Use

- The BSL ARM BRACE MAGPUL is designed solely for onehanded firing of a pistol. It is not intended to be fired from the shoulder.
- Ensure that the arm brace is properly attached to a compatible MilSpec carbine receiver extension.
- Do not modify or redesign the arm brace, as this may render the attached firearm NFA controlled.
- Use the toolless LOP adjustment mechanism to ensure a secure fit without compromising stability.
- Always apply sling tension using the integrated QD cup when firing with one hand to enhance stability.
- Be cautious of the surrounding environment and ensure that the area is clear of bystanders when using the firearm.

Instructions for Installation and Usage

Installation

1. Ensure that the firearm is unloaded and pointed in a safe direction.
2. Identify the MilSpec carbine receiver extension on your AR pistol.
3. Align the BSL ARM BRACE MAGPUL with the receiver extension and slide it into place until it is securely attached.
4. Adjust the length of pull (LOP) using the toolless mechanism to achieve a comfortable fit.
5. Verify that the arm brace is firmly attached and does not move or wobble.

Usage

1. Before firing, ensure that the firearm is loaded and that you are in a safe environment.
2. Position the arm brace against your forearm for onehanded firing.
3. Apply sling tension using the rear QD cup to stabilize the firearm.
4. Maintain a firm grip on the firearm and ensure that your finger is off the trigger until you are ready to fire.
5. Fire the firearm while maintaining control and stability with the arm brace.

Disposal Instructions

- Dispose of the BSL ARM BRACE MAGPUL in accordance with local regulations.
- If the product is damaged beyond repair, ensure that it is rendered unusable before disposal.
- Check with local authorities or waste management facilities for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the BSL ARM BRACE MAGPUL, please refer to the product packaging or visit the manufacturer's website for additional support.

By following these safety instructions, you can help ensure a safe and enjoyable experience with your BSL ARM BRACE MAGPUL. Always prioritize safety and compliance with applicable laws.
