## A Standard Two-Dot Tritium Sight for Glock Handguns

Looking to enhance the sights on your Glock handgun for low-light use? Tritium illumination has been a standard upgrade for defensive handguns for years, and this Classic Tritium Rear Sight designed for many popular Glock handguns is the perfect enhancement for your self-defense pistol. Designed as direct drop-in replacements for Glock's factory rear sight, this Classic Tritium Rear Sight features a low-profile design that's been streamlined and rounded to prevent snagging. The rear sight features two dots illuminated by Tritium lamps. This works with a standard 3-dot sight configuration, enabling users to line up three dots in a low-light defensive scenario. The dots also perform well in daylight, providing the same 3-dot configuration. These Classic Tritium Rear Sights for Glock handguns are available in a green/white color configuration and feature a sight body machined from steel for durability. The sight fits the following Glock handgun models: 17, 19, 22, 23, 26, 27, 33, 34, 35, 37, 38 and 39.

# CLASSIC TRITIUM REAR SIGHT FOR GLOCK®

## Safety Instruction Guide

### Introduction

Thank you for choosing the Classic Tritium Rear Sight for your Glock handgun. This product is designed to enhance your shooting experience, especially in lowlight conditions. To ensure your safety and the effective use of this product, please read and follow the guidelines outlined in this instruction manual.

### General Safety Guidelines

- Always treat your firearm as if it is loaded.
- Ensure that the firearm is pointed in a safe direction at all times.
- Keep your finger off the trigger until you are ready to shoot.
- Store the firearm and this product out of reach of children and unauthorized users.
- Regularly inspect the sight for any signs of damage or wear before use.
- If you notice any issues with the sight, discontinue use immediately and seek assistance.

### Specific Safety Precautions for Use

- Do not attempt to modify the sight or install it on a firearm for which it is not designed.
- Ensure that the sight is securely attached before using the firearm.
- Avoid using the firearm in conditions that may compromise your safety, such as extreme weather or unstable surfaces.
- Be aware of your surroundings and ensure that you have a clear line of sight when aiming.

### Instructions for Installation and Usage

#### Installation

1. **Remove the Existing Rear Sight:** Use a sight pusher tool to carefully remove the factory rear sight from your Glock handgun.
2. **Prepare the New Sight:** Inspect the Classic Tritium Rear Sight for any defects.
3. **Install the New Sight:** Align the new sight with the mounting slot on your Glock. Use the sight pusher tool to press the sight into place gently.
4. **Check Alignment:** Ensure that the sight is properly aligned with the front sight. Adjust if necessary.
5. **Secure the Sight:** Make sure the sight is firmly in place before using the firearm.

#### Usage

- The Classic Tritium Rear Sight features two dots illuminated by Tritium lamps, designed for lowlight conditions.
- Familiarize yourself with the sight picture by practicing at a shooting range.
- The sight can also be used effectively in daylight conditions, maintaining the standard 3dot configuration.

### Disposal Instructions

- Dispose of the sight responsibly in accordance with local regulations.
- Do not dispose of the sight in regular household waste.
- If the sight becomes damaged, contact your local waste management authority for proper disposal methods.

## **Contact Information for Further Support**

For any inquiries regarding safety or product issues, please refer to the manufacturer's website or customer service for assistance.

By following these guidelines, you can ensure the safe and effective use of your Classic Tritium Rear Sight for Glock handguns. Thank you for your attention to safety, and enjoy your enhanced shooting experience!
