AR15 Ultralight Handguards Safety Instruction Guide

Introduction

Thank you for choosing the AR15 Ultralight Handguards with MLOK. This safety instruction guide is designed to help you understand the safe use, installation, and maintenance of your new handguards. Please read this guide thoroughly before using the product to ensure your safety and the proper functioning of the handguards.

General Safety Guidelines

- Ensure that you are familiar with the operation of your AR15 firearm before installing or using the handguards.
- Always handle firearms with care and follow all safety protocols.
- Inspect the handguards for any signs of damage or defects before installation.
- Use only the recommended tools and parts for installation to avoid hazards.
- Keep the handguards and all firearm components out of reach of children and unauthorized users.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Installation Safety:**
 - Ensure the firearm is unloaded before beginning the installation process.
 - Wear appropriate safety gear, such as safety glasses, to protect your eyes during installation.
- **Weight Considerations:**
 - Be aware of the installed weight of the handguards (6.8oz to 8.9oz) and ensure your firearm can accommodate this without affecting balance or handling.
- **Material Safety:**
 - The handguards are made from rugged 6061 aluminum and are treated with Type 3 hard coat anodization. While they are designed for durability, avoid exposing them to extreme conditions that could compromise their integrity.
- **Compatibility:**
 - These handguards are not designed for use on gas piston ARs. Ensure compatibility with your firearm before installation.
- **Use of QD Sling Sockets:**
 - The handguards feature two integral antirotation QD sling sockets. Ensure that any slings used are compatible and securely attached to prevent accidents.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools, including the barrel nut wrench provided.
- Ensure your workspace is clean and free from distractions.

2. Installation Steps:

- **Step 1:** Ensure the firearm is unloaded and the safety is engaged.
- **Step 2:** Remove the existing handguards from your AR15 according to the manufacturer's instructions.
- **Step 3:** Install the titanium barrel nut using the provided screws. Use the barrel nut wrench for proper torque.
- **Step 4:** Attach the new handguards to the barrel nut, ensuring a secure fit.
- **Step 5:** Check that the handguards are properly aligned and that there is no movement.

3. PostInstallation Check:

- After installation, inspect the handguards to ensure they are securely attached.
- Test the QD sling sockets by attaching a sling and ensuring it is secure.

4. Usage:

- Use the handguards as intended, ensuring that your grip does not obstruct any moving parts of the firearm.
- Regularly check the handguards for any signs of wear or damage during use.

Disposal Instructions

- When the handguards reach the end of their life cycle, dispose of them in accordance with local regulations regarding aluminum and other metals.
- Recycle whenever possible to minimize environmental impact.

Contact Information for Further Support

For any questions or concerns regarding the AR15 Ultralight Handguards, please refer to the manufacturer's website or contact their customer support for assistance. Always ensure that you are following the most current safety guidelines and product updates.

Thank you for prioritizing safety while using the AR15 Ultralight Handguards. Enjoy your enhanced shooting experience!
