

SCOPE JACK LEVELING TOOL - FIX IT STICKS SCOPE JACK LEVELING TOOL

[Gunsmith Tools](#) > [Sight & Scope Installation Tools](#) > [Scope Reticle Levelers](#)

An Easy Way to Level Your Optic

The human eye can't detect whether or not a scope reticle is level if the degree is off by 3 degrees or less, but if your scope is off by just 3 degrees, then you're in trouble when it comes to making in-reticle adjustments for those long-range shots. The Fix It Sticks Scope Jack Leveling Tool is designed to get your scope set up right, and it works with any 1/4-inch driver! All you have to do is mount the jack to the Picatinny rail sitting underneath your riflescope. Then turn the drive handle until the arm on the jack engaged with the flat spot underneath your windage and elevation turrets. This ensures that your scope is perfectly level, and the jack will maintain pressure on this flat spot while you tighten your rings down. In order for the Fix It Sticks Scope Jack Leveling Tool to work, you have to have a short section of Picatinny rail sitting just underneath your scope body. Depending on how much clearance is available, you might have to take off the thumb screw and clamp to slide the jack onto the mounting surface from the side. Fix It Sticks says that there must be at least 1/4 inch of clearance to use the jack.

Attributes

- Name: [FIX IT STICKS SCOPE JACK LEVELING TOOL](#)

Fix It Sticks Scope Jack Leveling Tool Safety Instruction Guide

Introduction

Thank you for choosing the Fix It Sticks Scope Jack Leveling Tool. This guide provides essential safety instructions to ensure safe and effective use of the product. Please read this guide carefully before using the tool to avoid any potential hazards.

General Safety Guidelines

- Always ensure that the product is used in accordance with the manufacturer's instructions.
- Inspect the Scope Jack Leveling Tool before each use for any signs of damage or wear. Do not use if damaged.
- Keep the tool out of reach of children and vulnerable individuals.
- Use the tool only for its intended purpose as described in this guide.
- Be aware of your surroundings while using the tool to avoid accidents or injuries.
- Report any unsafe products or accidents to the authorities and check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that there is at least 1/4 inch of clearance under your scope body before attempting to mount the tool.
- If necessary, remove the thumb screw and clamp to slide the jack onto the mounting surface from the side.
- Avoid applying excessive force when using the tool, as this may damage your scope or the tool itself.
- Always maintain a firm grip on the tool while adjusting your scope to prevent slips or accidents.
- Do not use the tool if you are unsure about its operation or if you are not familiar with scope leveling.

Instructions for Installation and Usage

1. Preparation:

- Ensure your rifle is unloaded and pointed in a safe direction.
- Remove any obstructions from the Picatinny rail where the Scope Jack will be mounted.

2. Mounting the Scope Jack:

- Attach the Scope Jack to the Picatinny rail located underneath your riflescope.
- Ensure that the jack is securely mounted and will not move during use.

3. Engaging the Tool:

- Turn the drive handle on the jack until the arm engages with the flat spot underneath your windage and elevation turrets.
- Confirm that the scope is level by checking the alignment of the reticle.

4. Tightening the Rings:

- While maintaining pressure on the flat spot, tighten your scope rings carefully to secure the scope in place.
- Ensure that the scope remains level during this process.

5. Final Checks:

- After installation, doublecheck the level of the scope and make any necessary adjustments.
- Store the tool in a safe place after use.

Disposal Instructions

- Dispose of the Scope Jack Leveling Tool in accordance with local regulations.
- Do not dispose of the tool in regular household waste if it is damaged or no longer functional.
- Check with local waste management authorities for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the Fix It Sticks Scope Jack Leveling Tool, please refer to the manufacturer's website or contact their customer service for assistance.

Thank you for your attention to these safety instructions. Enjoy using your Fix It Sticks Scope Jack Leveling Tool responsibly!
