

VMG CLEANING TOOLS - VETPOWERED VMG MK-10 CLEANING TOOL

[Gunsmith Tools](#) > [Rifle Tools](#) > [Bolt Tools](#) > [Carbon Scrapers](#)

A Dedicated Cleaning Tool To Make Your AR Look Like New

No matter how much you scrub, soak and clean your AR-15 or AR .308, there always seems to be that little bit of baked-on carbon fouling in those little corners you can't get at. Bring your rifle back into like-new condition by using the VetPowered VMG Cleaning Tool. Available in MK-15 and MK-10 versions for AR-15 and AR .308 owners, respectively. The innovative design of the VetPowered VMG Cleaning Tool provides seven different functions within this one simple device. The stainless-steel unit features profiles that match the profile of the bolt and bolt carrier, so you can get into those hard-to-reach spots to scrape out stubborn carbon. The tool also features an eyelet that accepts a cleaning patch, so all that carbon and fouling you scrape off can be easily collected. The functionality of the tool doesn't end there, though. The front can be used to easily remove a bullet button, and the scraping pick is handy for removing a firing pin retaining pin. Best of all, the profits made from the sale of the VetPowered VMG MK-15 and MK-10 Cleaning Tool goes to support advanced manufacturing training for U.S. military veterans. These profits support Workshops for Warriors, a nonprofit dedicated to training and certifying wounded and transitioning military veterans for careers in manufacturing. Not only will you get your rifle back into peak operating condition, you'll also be contributing to the rebuilding of America's manufacturing industry.

Attributes

VMG CLEANING TOOLS VETPOWERED VMG MK10

CLEANING TOOL Safety Instruction Guide

Introduction

Thank you for choosing the VetPowered VMG MK10 Cleaning Tool. This guide provides essential safety instructions and guidelines to ensure the safe use of the product. Please read this document carefully before using the tool to maximize safety and effectiveness.

General Safety Guidelines

- Ensure the cleaning tool is used only for its intended purpose.
- Keep the cleaning tool out of reach of children and vulnerable individuals.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using the cleaning tool.
- Inspect the cleaning tool before each use to ensure it is in good condition and free from defects.
- Do not use the cleaning tool if it is damaged or malfunctioning.
- Follow all local laws and regulations regarding firearm maintenance and cleaning.

Specific Safety Precautions for Use

- Use the cleaning tool in a wellventilated area to avoid inhaling any harmful particles or fumes.
- Avoid using excessive force when scraping to prevent damage to the firearm or the tool.
- Do not use the cleaning tool on hot surfaces or immediately after firing a firearm.
- Ensure that the firearm is unloaded and safe before using the cleaning tool.
- Be cautious when using the scraping pick to avoid injury.
- If you experience any discomfort or adverse reactions while using the tool, discontinue use immediately and seek medical advice.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is unloaded and in a safe condition.
- Gather all necessary cleaning supplies, including the VetPowered VMG MK10 Cleaning Tool, cleaning patches, and any solvents or lubricants you may need.

2. Using the Cleaning Tool:

- Select the appropriate profile of the cleaning tool that matches the bolt and bolt carrier of your firearm.
- Use the scraping edge to gently remove carbon fouling from hardtoreach areas.
- Attach a cleaning patch to the eyelet for easy collection of debris.
- For removing a bullet button, position the front of the tool against the button and apply gentle pressure.
- Utilize the scraping pick to carefully remove the firing pin retaining pin if necessary.

3. PostCleaning:

- After cleaning, inspect the firearm to ensure all parts are functioning correctly.
- Clean the VetPowered VMG MK10 Cleaning Tool after each use to maintain its effectiveness.

Disposal Instructions

- Dispose of any cleaning materials in accordance with local regulations.
- The cleaning tool itself should be disposed of in a manner that complies with local waste management guidelines.
- If the cleaning tool is damaged beyond repair, consider recycling it if possible.

Contact Information for Further Support

For any questions or concerns regarding the use of the VetPowered VMG MK10 Cleaning Tool, please reach out to the manufacturer or consult the product's official website for additional support and resources.

Please remember that safety is paramount. By following these guidelines, you will ensure a safer and more effective cleaning experience with your VetPowered VMG MK10 Cleaning Tool. Thank you for your commitment to responsible firearm maintenance.
