

SIG SAUER P320 IRON SIGHT SETS - STRIKE INDUSTRIES SIG SAUER P320 IRON SIGHT SET SUPPRESSOR HEIGHT

[Handgun Parts](#) > [Sights](#) > [Sight Sets](#)

The Strike Iron Sights (Suppressor Height) give you an elevated sight picture for a red dot or suppressor pistol setup. The front and rear sights sit at an absolute co-witness position with a slide mounted red dot. Designed to help with proper sight alignment and keep the shooter's eyes focused, there is natural light that is seen on both sides of the front sight between the u-notch rear sight. Steps placed in the rear of both sights help angle and reduce unwanted glares or reflections out of your eyes. Lines and angles designed to use natural light reflections and shadow play to keep user's eye aligned and focused on the target. The rear sight is designed with a negative angle so that the shooter will see the back wall as dark as possible to give total focus on the sights. The line running down the middle of the rear sight is there to catch light from above and create a "line" illusion in which the shooter can use it to assist in aiming. The front sight can be painted to user's color preference or use glow-in-the-dark paint to customize the look and use of the sights. Made from SUS630 hardened stainless steel, the Strike Iron Sights For (Suppressor Height) is engineered to be as robust as possible while giving you one of the most budget friendly options on the market. The Strike Iron Sights (Standard Height) give you the best affordable option so you can throw away those plastic or boring OEM steel sights. Designed to help with proper sight alignment and keep the shooter's eyes focused, there is natural light that is seen on both sides of the front sight between the u-notch rear sight. Steps placed in the rear of both sights help angle and reduce unwanted glares or reflections out of your eyes. Safety Instruction Guide for SIG SAUER P320 Iron Sight Sets

Introduction

Thank you for choosing the SIG SAUER P320 Iron Sight Sets by Strike Industries. This guide provides important safety information and instructions to ensure the safe and effective use of your new iron sights. Please read this guide carefully before installation and use.

General Safety Guidelines

- Ensure that all nonfood products, including this sight set, are used safely and in accordance with the guidelines provided.
- Be aware of potential risks associated with the use of firearm accessories, and follow all safety protocols.
- When purchasing online, ensure that the seller complies with EU safety requirements.
- Extra care should be taken if the product is used by vulnerable groups, including children.
- If you encounter any unsafe products or accidents, report them to the relevant authorities.
- Stay informed about product recalls by checking the EU Safety Gate platform regularly.

Specific Safety Precautions for Use

- Always handle firearms with care and follow the basic safety rules for firearms.
- Ensure that the firearm is unloaded before installing or adjusting the sights.
- Use appropriate eye protection when using firearms equipped with these sights.
- Inspect the sights for any damage or defects before use.
- Do not modify the sights in any way that could affect their performance or safety.
- Be aware of your surroundings and ensure a safe shooting environment.

Instructions for Installation and Usage

Installation Instructions

1. **Prepare Your Firearm:** Ensure that your firearm is unloaded and pointed in a safe direction.
2. **Remove Existing Sights:** If applicable, carefully remove the existing sights from your SIG SAUER P320.
3. **Install Rear Sight:**
 - Align the rear sight with the sight dovetail on the slide.
 - Use a sight pusher tool or a soft mallet to gently tap the sight into place.
 - Ensure the sight is securely fitted and does not move.
4. **Install Front Sight:**
 - Align the front sight with the front dovetail on the slide.
 - Again, use a sight pusher tool or soft mallet to tap the front sight into place.
 - Confirm that the front sight is secure and correctly positioned.
5. **Check Alignment:** Once both sights are installed, check for proper alignment with your shooting stance.
6. **Test Functionality:** Before using the firearm, conduct a function test to ensure the sights are properly installed and aligned.

Usage Instructions

- Always ensure that your firearm is in a safe condition before aiming or shooting.
- Use the sights as intended, focusing on the alignment of the front and rear sights for accurate aiming.
- Adjust your shooting stance and grip as necessary to maintain a clear sight picture.
- Regularly check the sights for any loosening or damage after use.

Disposal Instructions

- Dispose of any packaging materials in accordance with local regulations.
- When disposing of the iron sights, ensure they are not left in a location where they could pose a hazard to others.
- If the sights are damaged or no longer usable, consider recycling materials where possible.

Contact Information for Further Support

For any questions or concerns regarding the SIG SAUER P320 Iron Sight Sets, please refer to your retailer or the manufacturer's official website for support and assistance.

Thank you for your attention to these safety guidelines. Enjoy your shooting experience with the SIG SAUER P320 Iron Sight Sets responsibly and safely.
