

ONE-PIECE SCOPE MOUNTS - BADGER ORDNANCE 34MM HIGH (1.50") UNIMOUNT ALUMINUM 20 MOA

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Mount Sets](#)

These one-piece scope mounts from Badger Ordnance provide a rock-solid mount for scopes with 34mm tubes. Their monolithic construction withstands harsh recoil, and makes for easy mounting onto any Picatinny receiver rail. Available in two heights, both measured from bottom of mount to center of optic. 1.3" height has built-in 20 MOA elevation. 1.49" height has no MOA. Rings secure with 4 Torx® head screws each. Reducer rings, available separately, allow use on 30mm scope tubes. Includes installation wrench.

Attributes

ONEPIECE SCOPE MOUNTS BADGER ORDNANCE 34MM HIGH (1.50") UNIMOUNT ALUMINUM 20 MOA Safety Instruction Guide

Introduction

Thank you for choosing the ONEPIECE SCOPE MOUNTS from Badger Ordnance. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your scope mounts. Please read this document carefully before installation and usage.

General Safety Guidelines

- Ensure that the product is used solely for its intended purpose as a scope mount for 34mm tube scopes.
- Always verify compatibility with your specific scope and firearm before installation.
- Inspect the product for any visible damage or defects before use. Do not use if damaged.
- Keep the product out of reach of children and vulnerable individuals.
- Follow all local laws and regulations regarding firearm accessories and modifications.
- Report any unsafe products or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Use appropriate tools for installation to avoid damaging the mount or firearm.
- Ensure that the mount is securely attached to the Picatinny rail before use.
- Regularly check the tightness of the screws and the overall condition of the mount during use.
- Avoid overtightening screws, as this may lead to damage or failure of the mount.
- Be aware of the potential for recoil when using highcaliber firearms, and ensure the mount is capable of withstanding such forces.
- If using reducer rings for 30mm scope tubes, ensure they are installed correctly and securely.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools, including a Torx® head screwdriver and the included installation wrench.
- Ensure your firearm is unloaded and pointed in a safe direction during the installation process.

2. Installation Steps

- Place the scope mount onto the Picatinny rail at the desired location.
- Align the mount so that it is level and properly positioned for your optic.
- Using the Torx® head screws, secure the mount to the rail.
- Tighten each screw gradually and evenly to avoid misalignment.

3. Scope Mounting

- Place your scope into the rings of the mount.
- Adjust the scope to the desired position, ensuring it is level.
- Secure the scope by tightening the screws on the rings.
- Again, ensure that the screws are tightened evenly to prevent movement.

4. Final Checks

- Once installed, doublecheck that all screws are tight and the scope is secure.
- Perform a function check to ensure the scope and mount are stable.

Disposal Instructions

- Dispose of the product in accordance with local regulations regarding aluminum and metal waste.
- If the product is damaged beyond repair, ensure that it is disposed of safely to prevent injury.

Contact Information for Further Support

For any questions or concerns regarding the ONEPIECE SCOPE MOUNTS, please reach out to the designated contact point provided by the retailer or manufacturer for assistance.

By following these guidelines, you can ensure the safe and effective use of your ONEPIECE SCOPE MOUNTS from Badger Ordnance. Thank you for your attention to safety.
