

# AR-15 HOPLITE HANDGUARDS M-LOK CARBON FIBER - BRIGAND ARMS

## AR-15 HOPLITE HANDGUARD 5IN CARBON FIBER M-LOK

[Rifle Parts](#) > [Build Kits](#) > [Handguards & Rails](#)

The Brigand Arms HOPLITE Low-Profile rails meets Brigand Arms high standard for handguard strength and heat rejection, and at each length offered the HOPLITE is the lightest low-profile handguard on the market. It mounts to any AR-15 receiver (.223/5.56 and 9mm PCC) using their proprietary mil-spec hard anodized aluminum barrel nut, and includes multiple M-LOK mounting slots, to accommodate any accessory. These carbon fiber parts are conditioned for stability even during barrel heat cycling, so front iron-sights and other aiming accessories remain accurate during any rate of fire. Material: Carbon Fiber Barrel Nut: mil-spec hard anodized aluminum Free-float design with M-LOK® slots at 3, 6, 9 & 12 o'clock Compatible with both .223/5.56 and 9mm. Handguard does not require timing. Available in 4.25", 4.5", 5", and 5.5" lengths.

# Safety Instructions for AR15 HOPLITE Handguards MLOK Carbon Fiber

## Introduction

Thank you for choosing the AR15 HOPLITE Handguards MLOK Carbon Fiber by Brigand Arms. This guide provides essential safety information to ensure the safe use and installation of your handguard. Please read this document carefully before use.

## General Safety Guidelines

- Ensure that the handguard is compatible with your AR15 receiver before installation.
- Always wear appropriate safety gear, including eye protection, when handling firearms and accessories.
- Inspect the handguard before each use for any signs of damage or wear.
- Keep the handguard and all firearm accessories out of reach of children and unauthorized users.
- Follow all local laws and regulations regarding firearm accessories.

## Specific Safety Precautions for Use

- Do not exceed the recommended rate of fire, as excessive heat can affect the performance of the handguard.
- Ensure that the handguard is securely mounted to prevent any movement during use.
- Avoid using the handguard with incompatible accessories that may compromise its integrity.
- Be cautious of heat buildup during extended shooting sessions; allow the handguard to cool before handling.
- If any part of the handguard appears damaged or compromised, discontinue use immediately and consult a qualified technician.

## Instructions for Installation and Usage

### 1. Preparation

- Gather all necessary tools, including a torque wrench and appropriate Allen keys.
- Ensure that the workspace is clean and free from any obstructions.

### 2. Installation Steps

- Remove the existing handguard from your AR15 receiver if applicable.
- Install the proprietary milspec hard anodized aluminum barrel nut according to the manufacturer's instructions.
- Align the HOPLITE handguard with the MLOK slots facing the desired direction.
- Securely fasten the handguard using the provided screws, adhering to the recommended torque specifications to avoid overtightening.
- Verify that the handguard is firmly attached and does not move when pulled.

### 3. Usage Guidelines

- After installation, conduct a function check to ensure proper operation.
- Regularly inspect the handguard and its mounting for any signs of wear or loosening.
- Use only MLOK compatible accessories to maintain the integrity of the handguard.

## **Disposal Instructions**

- When disposing of the handguard or any related components, follow your local regulations for the disposal of plastic and aluminum materials.
- Consider recycling the carbon fiber and aluminum components where facilities are available.

## **Contact Information for Further Support**

For any questions or concerns regarding the safety or installation of the AR15 HOPLITE Handguards MLOK Carbon Fiber, please contact the manufacturer or consult a qualified firearms technician.

Thank you for prioritizing safety and compliance with the EU General Product Safety Regulation. Your responsible use of this product contributes to a safer environment for all users.
