

# CLUTCH BELT - UNITY TACTICAL SMALL (30"-36") CLUTCH BELT, BLACK

[Shooting Accessories](#) > [Holsters & Belt Gear](#) > [Holster Belts](#)

CLUTCH is the ultimate solution for concealment of mission critical gear in non-permissive environments. Designed to make a combat loadout disappear under civilian clothes, CLUTCH is a must-have system for anyone conducting low-vis or undercover operations. It can also be worn as an overt belt for critical response situations, training, home defense, etc. CLUTCH is a modular, multi-purpose belt platform that hugs the body with a two-way stretch material for a custom fit. The inside surface is backed with a no-slip material to keep it in place. Individual cells are lined with Velcro pile to secure any number of pockets, holsters, carriers, etc. A CLUTCH accessory kit is available, comprised of several elastic inserts that securely hold a number of items. CLUTCH can be completely mission-configured for any plain-clothes law enforcement, military, security, or CCW mission. CLUTCH easily accepts most kydex holsters. Simply remove the IWB or OWB belt loops and attach adhesive-backed Velcro (included) to secure the holster in a CLUTCH cell. The same can be done with polymer mag carriers and knife sheaths. Most kydex holster makers' products will easily install in CLUTCH. Once loaded up, simply wrap CLUTCH around your waist or belly and secure the Velcro front closure. Further adjustments can be made in the rear via shock cord draw string. CLUTCH is so form fitting and adjustable that it can literally make a full loadout disappear under a sweatshirt, light jacket, or even a button-down shirt. CLUTCH is extremely useful for plain clothes operations where users want to carry more than a compact handgun. It allows for carriage of a full size pistol, multiple reloads, radio, IFAK, etc, giving the user more capability to prosecute a fight. Because it relies on stretch material to conform to the wearer's body, CLUTCH can easily be paired with sweatpants or workout shorts and a hoodie. CLUTCH is the most versatile concealment rig available. It is a force multiplier for missions that would otherwise relegate operators to compact weapons and less hardware.

# CLUTCH BELT UNITY TACTICAL SMALL Safety Instruction Guide

## Introduction

Thank you for choosing the CLUTCH BELT UNITY TACTICAL SMALL. This guide provides important safety information, usage instructions, and disposal guidelines to ensure your safe and effective use of this product. Please read this guide carefully before using the belt.

## General Safety Guidelines

- Ensure that the belt is worn correctly and securely to prevent accidents or injuries.
- Regularly inspect the belt for any signs of wear or damage. Do not use if damaged.
- Keep the belt away from children and vulnerable individuals unless supervised.
- Follow all instructions regarding the attachment of accessories to avoid potential hazards.
- In case of any malfunction or safety concerns, discontinue use immediately and seek assistance.

## Specific Safety Precautions for Use

- When wearing the CLUTCH belt, ensure that it fits snugly but comfortably to avoid slipping or movement during activities.
- Avoid overloading the belt with excessive weight, which may compromise its structural integrity or your safety.
- Be cautious when using the belt in highrisk environments. Ensure that it does not interfere with your movement or visibility.
- If using the belt for concealed carry, ensure that all items are securely fastened and do not pose a risk of accidental discharge or injury.
- Always follow local laws and regulations regarding concealed carry and the use of tactical gear.

## Instructions for Installation and Usage

### 1. Fitting the Belt:

- Adjust the belt to fit your waist size (30"36").
- Wrap the belt around your waist or belly, ensuring it is snug but not overly tight.
- Secure the Velcro front closure to keep the belt in place.
- Make further adjustments using the rear shock cord drawstring if necessary.

### 2. Attaching Accessories:

- To attach kydex holsters, remove the IWB or OWB belt loops from the holster.
- Apply the adhesivebacked Velcro (included) to the holster and secure it in a CLUTCH cell.
- Repeat the process for polymer mag carriers and knife sheaths as needed.

### 3. Loading the Belt:

- Place items such as magazines, radios, or IFAK into the individual cells lined with Velcro pile.
- Ensure that all items are securely fastened and do not obstruct your movement.

### 4. Wearing the Belt:

- Once loaded, ensure the belt is properly positioned and secured.
- Make sure that the belt does not interfere with your clothing or movement.

## **Disposal Instructions**

- Dispose of the CLUTCH belt in accordance with local waste disposal regulations.
- If the belt is damaged beyond repair, consider recycling the materials where applicable.
- Do not dispose of the belt in regular household waste if it contains any hazardous materials.
