[Optics & Mounting](#) > [Electronic Sights](#) > [Mounting Hardware](#)

## A Dedicated Optic-Mounting Plate for Your Go-To Glock

C&H Precision has developed a dedicated optics-mounting plate designed for use on a range of MOS-ready Glock pistols, and these plates are designed for heavy duty use with a wide range of popular red-dot optics on the market. Each C&H Precision V4 MIL/LEO Optic Mounting Plate designed for use on Glock pistols is machined from 6061 aluminum and treated with a hard-anodized finish. The plates are equipped with two recoil posts, and all of the company's V4 plates come with replaceable T-posts made from stainless steel. Products marked RSF (Rear Sight Forward) feature a forward mounting rear sight built into the mount and are not compatible with the Trijicon SRO. The plates are secured with Torx head screws designed for the best possible retention.

## SAFETY INSTRUCTIONS

### Introduction

Thank you for choosing the V4 MIL/LEO GLOCK Optic Mounting Plate by C&H Precision Weapons. This guide provides essential safety instructions and information to ensure the safe and effective use of this product. Please read this document carefully before installation and use.

### General Safety Guidelines

- Always ensure that the optic mounting plate is compatible with your specific Glock model (17, 19, 34, 35, 41, 40).
- Inspect the mounting plate and all components for any signs of damage before installation.
- Use the mounting plate only with compatible optics, including Trijicon RMR and Holosun models specified in the product description.
- Ensure that the installation area is clean and free of debris to prevent contamination during installation.
- Follow all local laws and regulations regarding the use of firearms and accessories.

### Specific Safety Precautions for Use

- The mounting plate is designed for heavyduty use; however, improper installation can lead to accidents.
- Ensure that all screws are tightened to the manufacturer's specifications using the appropriate Torx tool.
- Do not exceed the recommended weight limit for optics mounted on this plate.
- If you experience any issues during installation or use, cease operation immediately and consult a qualified gunsmith.
- Keep the mounting plate and all components out of reach of children and unauthorized users.

### Instructions for Installation and Usage

#### 1. Preparation:

- Gather all necessary tools, including a Torx screwdriver and any additional hardware provided.
- Ensure that your Glock pistol is unloaded and pointed in a safe direction.

#### 2. Installation Steps:

- Remove the factory plate from the Glock MOS system by unscrewing it with the appropriate tool.
- Align the C&H Precision V4 mounting plate with the mounting holes on the Glock slide.
- Insert the provided screws through the mounting plate into the slide holes.
- Use the Torx screwdriver to tighten the screws securely, ensuring the plate is firmly attached.
- Attach the compatible optic to the mounting plate according to the optic manufacturer's instructions.

#### 3. PostInstallation Checks:

- Once installed, check the stability of the optic and ensure there is no movement.
- Perform a function check of the firearm to ensure that it operates correctly with the new mounting plate.

## **Disposal Instructions**

- When disposing of the V4 MIL/LEO GLOCK Optic Mounting Plate, follow local regulations for the disposal of metal products.
- Do not dispose of the mounting plate in regular household waste.
- Consider recycling the aluminum material if possible.

## **Contact Information for Further Support**

For safety inquiries, product support, or to report any issues, please reach out to the manufacturer directly. Ensure you have your product details and any relevant information ready for a prompt response.

By following these guidelines and instructions, you can ensure the safe and effective use of your V4 MIL/LEO GLOCK Optic Mounting Plate. Thank you for prioritizing safety and compliance with the EU General Product Safety Regulation.
