

# HELLFIRE LINEAR FLASH SUPPRESSOR - AREA 419 LINEAR FLASH SUPPRESSOR 1/2 -28

[Rifle Parts](#) > [Muzzle Devices](#) > [Flash Hiders](#)

## A Flash Hider That Directs Muzzle Blast Forward

Area 419's Hellfire Linear Flash Suppressor not only hides muzzle flash from your short carbine or pistol, it also takes all of that annoying concussive muzzle blast and directs it forward, so you and your range buddies have a better shooting experience. In addition, directing all the blast forward means there's less disruption in your immediate shooting area, so if you're lying prone on a dusty range bay, you aren't going to kick up dirt and dust around you with every trigger pull. Each Area 419 Hellfire Linear Flash Suppressor is machined from 17-4 PH stainless steel and finished with a black-nitride treatment that matches well with any firearm. In addition, this muzzle device features a .45-caliber bore, allowing you to use it on guns chambered up to .458 SOCOM with ease. Two different models are available to fit guns sized with 1/2-28 TPI and 5/8-24 TPI muzzle threads. This flash suppressor also fits onto any Hellfire Universal Adapter, so you can swap back and forth from muzzle brake to flash suppressor with ease.

## Attributes

- Name: [AREA 419 LINEAR FLASH SUPPRESSOR 1/2 -28](#)
- Manufacturer: [AREA 419](#)

# HELLFIRE LINEAR FLASH SUPPRESSOR SAFETY INSTRUCTIONS

## Introduction

Thank you for purchasing the Area 419 Hellfire Linear Flash Suppressor. This product is designed to enhance your shooting experience by effectively managing muzzle flash and concussive blast. To ensure safe and effective use, please carefully read and follow these safety instructions.

## General Safety Guidelines

- Always treat the suppressor as if it is loaded, even when it is not.
- Ensure that the suppressor is compatible with your firearm before installation.
- Follow all local, state, and federal laws regarding the use of suppressors.
- Keep the suppressor out of reach of children and unauthorized users.
- Inspect the suppressor for any signs of damage or wear before each use.
- Use appropriate hearing protection when shooting, as suppressors do not eliminate all noise.
- Report any unsafe products or accidents to relevant authorities.

## Specific Safety Precautions for Use

- Ensure that your firearm is unloaded before attaching or detaching the suppressor.
- Do not modify the suppressor in any way; alterations may create safety hazards.
- Always use the suppressor on firearms that are chambered for .45 caliber (.451.452) or compatible calibers.
- Be aware that the suppressor directs muzzle blast forward; maintain a safe distance from others when firing.
- Avoid using the suppressor in environments where dust or debris may be kicked up, especially if lying prone.
- Do not use the suppressor with firearms that exceed the specified caliber or thread size.

## Instructions for Installation and Usage

### 1. Installation

- Ensure your firearm is unloaded.
- Align the suppressor with the muzzle threads of your firearm.
- Screw the suppressor onto the muzzle until it is securely attached. Do not overtighten.
- Verify that the suppressor is properly seated and does not wobble.

### 2. Usage

- Always wear appropriate eye and ear protection when firing.
- Fire the firearm in a safe direction, ensuring that the area is clear of bystanders.
- Monitor the suppressor for any signs of overheating or unusual wear during use.
- After shooting, allow the suppressor to cool before handling.

## Disposal Instructions

- Dispose of the suppressor in accordance with local regulations.
- If the suppressor is damaged or no longer usable, contact a professional for safe disposal options.
- Do not dispose of the suppressor in regular household waste.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of the Area 419 Hellfire Linear Flash Suppressor, please refer to the manufacturer's website or contact their support team for assistance.

By following these safety instructions, you can enjoy the benefits of your new suppressor while ensuring a safe shooting environment for yourself and others. Thank you for prioritizing safety and compliance with EU General Product Safety Regulations.
