# BILLET LOADING BLOCKS AREA 419 BILLET LOADING BLOCK 0.655" CLEAR ANODIZED Safety Instruction Guide

## Introduction

Thank you for choosing the BILLET LOADING BLOCKS AREA 419 BILLET LOADING BLOCK. This product is designed to securely hold various types of ammunition while reloading. To ensure safe and effective use, please read this safety instruction guide carefully.

## General Safety Guidelines

- Ensure that all users are familiar with the operation and safety features of the loading block.
- Use the loading block only for its intended purpose: to hold ammunition securely during the reloading process.
- Always inspect the loading block before use for any signs of damage or wear.
- Store the loading block in a secure location away from children and unauthorized users.
- Report any unsafe conditions or accidents to the appropriate authorities immediately.
- Regularly check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

### • Hazard Identification:

- The loading block is designed to hold ammunition, which can be dangerous if mishandled.
- Ensure that the loading block is placed on a stable surface to prevent tipping or sliding.

### • Avoiding Hazards:

- Do not overload the loading block beyond its capacity of 50 rounds.
- Keep the loading block away from open flames or high heat sources.
- Use caution when handling ammunition to prevent accidental discharge.
- Always ensure that the holes are clean and free of debris before placing ammunition in the loading block.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure that the work area is clean and free from distractions.
- Gather all necessary materials, including the loading block and ammunition.

### 2. Placement:

- Place the loading block on a flat, stable surface.
- Ensure that the rubber pads on the bottom are intact to prevent sliding.

### 3. Loading Ammunition:

- Carefully insert the ammunition into the appropriate holes based on the caliber:
  - 223 - (0.390")
  - ARC/Grendel - (0.452")
  - 308 - (0.485")
  - 284 - (0.515")
  - Magnum - (0.560")

- Lapua - (0.600")
- Cheytac - (0.655")
- Ensure that the ammunition fits snugly in the holes to prevent tipping over.

#### 4. PostUse:

- After use, remove all ammunition from the loading block.
- Clean the loading block as necessary to maintain its condition.

## Disposal Instructions

- Dispose of the loading block in accordance with local regulations regarding aluminum recycling.
- Ensure that the loading block is free of any ammunition or debris before disposal.

## Contact Information for Further Support

For any safety inquiries or additional support regarding the BILLET LOADING BLOCKS AREA 419 BILLET LOADING BLOCK, please refer to the manufacturer's contact information provided with the product packaging.

By following these safety instructions, you can ensure a safe and effective reloading experience with your BILLET LOADING BLOCK. Thank you for prioritizing safety and responsible usage.
