# ARES G2 UHD 2060X85MM SPOTTING SCOPE

## SAFETY INSTRUCTION GUIDE

### Introduction

Thank you for choosing the ARES G2 UHD 2060X85MM Spotting Scope. This guide provides essential safety instructions to ensure the safe use and maintenance of your spotting scope. Please read this guide carefully and keep it for future reference.

### General Safety Guidelines

- Ensure the spotting scope is used only for its intended purpose, which is to observe distant objects.
- Keep the spotting scope out of reach of children and vulnerable individuals to prevent accidents.
- Always inspect the spotting scope before use for any signs of damage or wear.
- Avoid using the spotting scope in extreme weather conditions (heavy rain, snow, or high winds) to prevent damage.
- Do not attempt to disassemble or modify the spotting scope, as this may result in injury or void the warranty.

### Specific Safety Precautions for Use

- **Optical Safety:** Avoid looking directly at the sun through the spotting scope, as this can cause serious eye damage.
- **Stability:** Use a stable tripod when using the spotting scope at high magnifications to prevent it from tipping over.
- **Handling:** Handle the spotting scope with care. Avoid dropping or shaking it, as this can misalign the internal components.
- **Lens Protection:** Use the provided lens caps when the spotting scope is not in use to protect the lenses from dust and scratches.
- **Cleaning:** Clean the lenses with a soft, lintfree cloth. Avoid using harsh chemicals or abrasive materials.

### Instructions for Installation and Usage

#### 1. Setting Up the Spotting Scope:

- Choose a stable and level surface to set up your tripod.
- Attach the spotting scope securely to the tripod mount.
- Ensure that the scope is tightened properly to avoid any movement during use.

#### 2. Adjusting the Magnification:

- Rotate the magnification ring to adjust the zoom level from 20x to 60x as needed.
- Start with a lower magnification for easier tracking of objects, then increase it for detailed viewing.

#### 3. Focusing the Image:

- Use the focus knob to adjust the clarity of the image.
- Look through the eyepiece and turn the knob until the object appears sharp and clear.

#### 4. Using the Ranging Reticle Eyepiece (Optional):

- If you have the optional fixed 28x ranging reticle eyepiece, attach it according to the manufacturer's instructions.

- Use the reticle for precise measurements at varying distances.

## **Disposal Instructions**

- Dispose of the spotting scope according to local regulations regarding electronic waste.
- Remove any batteries and dispose of them separately in accordance with local battery disposal guidelines.
- If disposing of packaging materials, recycle them where possible.

## **Contact Information for Further Support**

For questions or concerns regarding the ARES G2 UHD 2060X85MM Spotting Scope, please refer to the manufacturer's website or contact their customer support for assistance.

By following these safety instructions, you can ensure a safe and enjoyable experience with your ARES G2 UHD Spotting Scope. Thank you for your attention to safety!
