

EDGE BAG GATER - EDGEWOOD SHOOTING BAGS EDGE BAG GATER STD 3-1/2"H 3/8" SPREAD 3M SLICK

[Shooting Accessories](#) > [Shooting Rests](#) > [Bench Rest Bags](#)

This is a long, heavy bag - about twice the length of the Original (6" x 13") - the ultimate in stability. Filled weight can easily top 25 lbs. depending on body height. It features a padded top for resting the trigger hand and includes the same choices of ear combination as the Original. The Gater has a multi-layered all flat base. EDGE model includes the following upgrades: Extra rigid, super flat bag base made with a unique material resists deformation over time ""Overlay Ears"" - Whether you choose slick material or cordura, a durable layer of leather is added underneath the material which contributes to consistency in shape and performance as well as extreme longevity and resistance to wear. Flatter ear space means the riding surface at the base of the ears has been redesigned to practically eliminate inconsistencies in the transition between the riding surface and the ear base. This remedies any potential drag or grabbing and increases longevity by removing an inherent wear point. Reinforced ear base isolates the ear set from the shape of the bag, contributing to consistency in the contact surface and ear spread. Embroidered cordura tops showcase our brand new logo and highlight the evolution of our designs.
