

# ROF-90 TRIJICON RMR/SRO MOUNT - REPTILIA CORP ROF-90 30MM GEISSELE SUPER PRECISION MOUNT & RMR/SRO BLACK

[Optics & Mounting](#) > [Electronic Sights](#) > [Mounting Hardware](#)

The Reptilia ROF-90 is a drop-in upgrade for magnified scope mounts. Available initially Geissele Automatics' Super Precision optic mount, it adds a 90° mounting point for a Trijicon RMR to provide a fast, close-range optic to your magnified scope. Each ROF model is designed to minimize each optic's distance from the host scope's centerline, while ensuring enough clearance that the sight picture isn't obscured. Compatible with: Trijicon® - RMR & SRO Holosun® Technologies - HS407, HE407, HS507, HE507, & HE508 Series

# Safety Instruction Guide for the ROF90 Trijicon RMR/SRO Mount

## Introduction

Thank you for choosing the ROF90 Trijicon RMR/SRO Mount by Reptilia Corp. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this guide carefully before installation and use.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose as specified in this guide.
- Always follow the manufacturer's instructions for installation and usage to prevent accidents or injuries.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the mount for any signs of wear or damage. If any issues are found, discontinue use immediately.
- Report any unsafe conditions or incidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Do not exceed the manufacturer's recommended weight limits for the mount.
- Ensure that the mount is securely attached to the host scope before use.
- Avoid using the mount in extreme environmental conditions that may compromise its integrity.
- Always use the mount in a manner that does not obstruct the user's vision or the sight picture.
- Be cautious when handling the mount and optic to prevent accidental drops or impacts.

## Instructions for Installation and Usage

### 1. Preparation

- Gather all necessary tools for installation, including a torque wrench.
- Ensure the work area is clean and free from distractions.

### 2. Installation Steps

- Remove the existing mount from the host scope if applicable.
- Align the ROF90 mount with the appropriate mounting points on the host scope.
- Securely attach the mount using the provided screws, ensuring they are tightened to the manufacturer's specifications.
- Attach the Trijicon RMR or SRO optic to the designated mounting point on the ROF90 mount.
- Check the alignment and ensure that the optic is securely fastened.

### 3. Usage Tips

- Familiarize yourself with the operation of the Trijicon RMR or SRO optic before using it in the field.
- Regularly check the mount and optic for any looseness or misalignment during use.
- Store the mount in a safe and dry location when not in use.

## Disposal Instructions

- Dispose of the product in accordance with local regulations and guidelines for electronic waste.
- Remove any batteries from the optic before disposal.
- Do not dispose of the product in regular household waste.

## **Contact Information for Further Support**

For any inquiries regarding safety or product support, please consult the Reptilia Corp official website or your local retailer. It is important to have a reliable point of contact for any safetyrelated questions or concerns.

By following these guidelines, you can help ensure a safe and effective experience with your ROF90 Trijicon RMR/SRO Mount. Thank you for your attention to safety and for choosing Reptilia Corp products.
