

# ROF RISER FOR TRIJICON RMR/SRO - REPTILIA CORP ROF RISER 10MM FOR TRIJICON RMR/SRO BLACK

[Optics & Mounting](#) > [Electronic Sights](#) > [Mounting Hardware](#)

The Reptilia ROF Riser is an add-on plate for their ROF line. It moves the mounted red dot sight 2.5mm OR 10mm further from the host scope's centerline, providing extra clearance for tall turrets or larger-belled scope bodies. It's available initially for the Trijicon RMR and will include longer flat head 6-32 screws to mount a RMR. Compatible with: Trijicon® - RMR & SRO Holosun® Technologies - HS407, HE407, HS507, HE507, & HE508 Series

# Safety Instruction Guide for ROF Riser for Trijicon RMR/SRO

## Introduction

Thank you for choosing the Reptilia ROF Riser for your Trijicon RMR/SRO. This addon plate is designed to enhance your shooting experience by providing additional clearance for tall turrets or larger scope bodies. This guide provides essential safety instructions to ensure the safe use of the product in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Always read and understand the instructions before using the product.
- Ensure that the product is suitable for your specific red dot sight and host scope.
- Regularly inspect the product for any signs of wear or damage before use.
- Store the product in a cool, dry place away from direct sunlight and moisture.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe conditions or accidents to the relevant authorities.

## Specific Safety Precautions for Use

- Ensure that the Riser is securely mounted to prevent any movement during use.
- Avoid using the product if any parts are damaged or missing.
- Do not exceed the recommended height settings; use only the specified 2.5mm or 10mm adjustments.
- Be cautious when using the product in adverse weather conditions that may affect visibility or handling.
- Always use the appropriate tools when installing or adjusting the Riser to avoid personal injury.

## Instructions for Installation and Usage

### Installation Instructions

1. **Gather Required Tools:** You will need a flat head screwdriver suitable for 632 screws.
2. **Prepare the Host Scope:** Ensure that the host scope is clean and free of debris.
3. **Align the Riser:** Position the ROF Riser on the host scope where the red dot sight will be mounted.
4. **Insert Screws:** Using the provided longer flat head 632 screws, attach the Riser securely to the host scope.
5. **Tighten Screws:** Ensure that all screws are tightened evenly to avoid any misalignment.

### Usage Instructions

1. **Mount the Red Dot Sight:** Attach your Trijicon RMR or SRO to the Riser as per the manufacturer's instructions.
2. **Check Alignment:** Verify that the red dot sight is properly aligned with the host scope.
3. **Test Stability:** Gently shake the assembly to ensure that everything is securely mounted.
4. **Adjust as Necessary:** If adjustments are needed, loosen the screws slightly, make the necessary changes, and retighten.

## Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of electronic components in regular household waste.
- Consider recycling options available in your area for metal and plastic components.

## **Contact Information for Further Support**

For any questions or concerns regarding the ROF Riser, please refer to the manufacturer's website or contact your local authorized dealer for assistance.

By following these instructions, you can ensure the safe and effective use of the Reptilia ROF Riser for your Trijicon RMR/SRO. Thank you for your attention to safety!
