

# ROF RISER FOR TRIJICON RMR/SRO - REPTILIA CORP ROF RISER 10MM FOR TRIJICON RMR/SRO FDE

[Optics & Mounting](#) > [Electronic Sights](#) > [Mounting Hardware](#)

The Reptilia ROF Riser is an add-on plate for their ROF line. It moves the mounted red dot sight 2.5mm OR 10mm further from the host scope's centerline, providing extra clearance for tall turrets or larger-belled scope bodies. It's available initially for the Trijicon RMR and will include longer flat head 6-32 screws to mount a RMR. Compatible with: Trijicon® - RMR & SRO Holosun® Technologies - HS407, HE407, HS507, HE507, & HE508 Series

# ROF Riser for Trijicon RMR/SRO Safety Instruction Guide

## Introduction

Thank you for purchasing the ROF Riser for Trijicon RMR/SRO by Reptilia Corp. This guide provides essential safety instructions and information to ensure the safe use and installation of your product. Please read this manual carefully before using the ROF Riser.

## General Safety Guidelines

- Ensure that the ROF Riser is compatible with your red dot sight and host scope before installation.
- Always inspect the product for damage before use. Do not use if damaged.
- Keep the product out of reach of children and vulnerable individuals.
- Use the product only for its intended purpose as specified by the manufacturer.
- If you experience any issues or have concerns about the product, discontinue use immediately and seek assistance.

## Specific Safety Precautions for Use

- **Compatibility Check:** Ensure that the ROF Riser is designed for use with Trijicon RMR and SRO models, as well as Holosun HS407, HE407, HS507, HE508 series.
- **Installation:** Follow the installation instructions carefully to avoid improper mounting, which may lead to accidents or product failure.
- **Height Adjustment:** Be aware that the riser moves the mounted sight 2.5mm or 10mm from the host scope's centerline. Ensure that this adjustment does not interfere with your line of sight or shooting stability.
- **Screw Tightness:** Use the provided flat head 632 screws and ensure they are securely tightened to prevent loosening during use.
- **Environmental Conditions:** Avoid using the product in extreme weather conditions that may affect its performance or integrity.

## Instructions for Installation and Usage

1. **Gather Required Tools:** You will need a flat head screwdriver suitable for the provided screws.
2. **Remove Existing Mount:** If applicable, carefully remove the existing mount from your Trijicon RMR or SRO.
3. **Position the ROF Riser:** Align the ROF Riser with the mounting points on your Trijicon sight.
4. **Secure the Riser:**
  - Insert the provided flat head 632 screws into the designated holes.
  - Use the screwdriver to tighten the screws securely, ensuring the riser is firmly attached.
5. **Install the Red Dot Sight:** Once the riser is securely mounted, attach your red dot sight according to its specific installation instructions.
6. **Final Check:** After installation, doublecheck all screws for tightness and ensure that the sight is correctly aligned with your host scope.

## Disposal Instructions

When disposing of the ROF Riser, please follow local regulations regarding electronic and accessory waste. Do not dispose of the product in regular household waste. Consider recycling whenever possible.

## **Contact Information for Further Support**

For any questions regarding safety or product performance, please refer to the manufacturer's website or customer support resources for assistance.

Thank you for choosing the ROF Riser for Trijicon RMR/SRO. Your safety and satisfaction are our top priorities. Please follow these guidelines to ensure safe and effective use of your product.
