

# ZERO MODULAR SHELLHOLDER SYSTEM - AREA 419 ZERO MODULAR SHELLHOLDER SYSTEM FOR TRADITIONAL PRESSES

[Reloading](#) > [Shellholders & Shellplates](#)

Area 419 has done round after round of press testing, both with the ZERO and other presses, we have known that the very best way to get consistent sizing time and again is to have contact between the shellholder and the die. This removes your ability, however, to dial in your shoulder bump – until now. With the new ZERO Modular Shellholder System you can set up your shellholder to your die and have more consistency, more repeatability, and less hassle. It's a win-win-win. Available in either a Zero specific mounting system or a traditional shellholder this allows you to dial in should bump with a set of 6 precision ground stainless steel inserts .002" at a time. The Kit comes with: A Base (meant for ZERO or Traditional presses, your choice) THREE Shellholder/Extractor tops, sized for 223, 308, Standard Magnum (or similar) SIX Precision Ground headspace inserts ranging from +.002" to -.008" Aluminum Storage Block

## Attributes

# ZERO Modular Shellholder System Safety Instructions

## Introduction

Thank you for choosing the ZERO Modular Shellholder System by AREA 419. This guide provides essential safety instructions to ensure the safe and effective use of your shellholder system. Please read this document carefully before using the product.

## General Safety Guidelines

- **Product Safety:** This product is designed for safe use with traditional presses. Always follow the instructions provided to avoid potential hazards.
- **Enhanced Recalls:** In the event of a product recall, you will be notified through standardized recall notices. Ensure you check for updates regularly.
- **Online Shopping:** If purchased online, the same safety protections apply as if bought in a physical store. Always ensure your seller meets safety requirements.
- **Special Consumer Focus:** Extra precautions are advised for vulnerable groups, including children. Keep all components out of reach of children.
- **EU Contact Point:** For any safety inquiries, refer to the designated EU contact point provided by the manufacturer.
- **Rapid Alerts:** Stay informed about potential safety issues via the Safety Gate system, which provides updates on unsafe products.

## Specific Safety Precautions for Use

- **Hazard Identification:**
  - Risk of injury from improper handling of sharp metal components.
  - Risk of damage to the die or shellholder if not used correctly.
- **Avoiding Hazards:**
  - Always handle the shellholder and its components with care.
  - Ensure the shellholder is securely attached to the press before use.
  - Do not exceed the recommended specifications for your press and shellholder.
- **AgeSpecific Warnings:**
  - This product is intended for use by adults and should not be operated by children or individuals without proper training.

## Instructions for Installation and Usage

### 1. Installation:

- Choose either the ZERO specific mounting system or the traditional shellholder based on your press type.
- Securely attach the base to your press, ensuring all connections are tight.
- Select the appropriate shellholder/extractor top for your cartridge size (223, 308, or Standard Magnum).
- Insert the chosen precision ground headspace insert into the shellholder for accurate sizing.

### 2. Usage:

- Before operating the press, doublecheck that all components are properly installed and secure.
- Adjust the shoulder bump by changing the precision ground inserts. Each insert allows for adjustments of .002 inches at a time.

- Always monitor the operation, ensuring there are no unusual sounds or movements during use.
- After use, carefully detach the shellholder and store it in the provided aluminum storage block.

## **Disposal Instructions**

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of metal parts in regular household waste. Check with local recycling programs for proper disposal methods.

## **Contact Information for Further Support**

For any questions or assistance regarding the ZERO Modular Shellholder System, please refer to the contact information provided by the manufacturer. It is essential to get in touch with them for any safety concerns or product issues.

By following these safety instructions, you can ensure a safe and effective experience with your ZERO Modular Shellholder System. Thank you for your attention to safety and for choosing AREA 419.
