[Gunsmith Tools](#) > [Rifle Tools](#) > [Wrenches](#)

For use with Short Action Customs MODULAR ACTION WRENCH HEADS. After extensive torture testing, Short Action Customs manufactured wrench bodies out of 4140 Alloy Steel with a super hard heat treat. With their unique modified 3/8" square drive interface is tool-less and offers super quick wrench head changes. On the back end, Short Action Customs have a standard 5/8" Hex to work with any standard 6 point or 12 point socket. With a nominal .685" body diameter, it works with a large array of actions. Short Action Customs Guarantee At Short Action Customs, they are only concerned with making the best products. The modular action wrench comes with a lifetime guarantee against any manufactured defects and has a 100% lifetime replacement for any broken parts. They have thoroughly tested the wrench bodies, and they are capable of handling impressive torque values. However they guarantee the wrench's to handle 125 ft/lbs. Of torque. Torqueing above 125 ft/lbs. Will void your warranty on the wrench body and the wrench heads. The wrench heads are softer than most actions, they will get normal wear and tear, however if any break or crack, they will replace them at no charge. When attempting to remove a factory action such as a tikka or remington model 700. They recommend having the action removed by a qualified gunsmith. If you break your modular action wrench body while removing a factory action they are not covered under warranty. LONG BUMPER USED FOR Remington 700 Tikka's Howa's Impact's Defiance Lone Peak Zermatt American rifle Company Any action with similar Tenon Lengths SHORT BUMPER USED FOR Terminus Curtis Customs Any action with similar Tenon lengths THE MODULAR ACTION WRENCH INCLUDES THE FOLLOWING Wrench Body Long Delrin Bumper Short Delrin Bumper 8/32 Set Screw NOTE: THESE WRENCH BODIES ARE DESIGNED TO BREAK PRIOR TO DAMAGING YOUR ACTION. WE STRONGLY RECOMMEND HAVING A QUALIFIED GUNSMITH REMOVING YOUR FACTORY BARREL OFF A FACTORY ACTION FOR THE FIRST TIME

# MODULAR ACTION WRENCH BODY SAFETY INSTRUCTIONS

## Introduction

Thank you for choosing the Modular Action Wrench Body from Short Action Customs. This guide provides essential safety information to ensure the safe and effective use of the product. Please read this document carefully before use.

## General Safety Guidelines

- **Product Safety:** Ensure safe use of the Modular Action Wrench Body by following all instructions. This product is designed for nonfood use and should be handled with care.
- **Enhanced Recalls:** Be aware that in the event of a safety issue, recall notices will be provided, and remedies will be available at no cost.
- **Online Shopping:** If purchased online, ensure the seller complies with safety regulations applicable to physical stores.
- **Special Consumer Focus:** Extra caution should be taken when using this product around vulnerable groups, including children.
- **EU Contact Point:** For any safety inquiries, refer to the designated EU contact point.
- **Rapid Alerts:** Stay updated on product safety through the Safety Gate system.

## Specific Safety Precautions for Use

- **Qualified Gunsmith:** Always have a qualified gunsmith remove factory barrels from factory actions, especially on the first attempt.
- **Torque Limit:** Do not exceed the recommended torque of 125 ft/lbs. Exceeding this limit may void your warranty and cause damage.
- **Wear and Tear:** Be aware that the wrench heads are softer than most actions and may experience normal wear and tear.
- **Warranty:** If the Modular Action Wrench Body breaks during use, it may not be covered under warranty if used improperly.
- **Inspection:** Regularly inspect the wrench body and heads for any signs of wear or damage before use.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure you have the correct wrench head compatible with the Modular Action Wrench Body.
- Gather all necessary tools and ensure a clean workspace.

### 2. Installation:

- Attach the wrench head to the Modular Action Wrench Body using the toolless interface.
- Confirm that the head is securely attached before use.

### 3. Usage:

- Position the wrench body with the appropriate bumper (long or short) based on the action being worked on.
- Apply torque gradually, ensuring not to exceed the maximum limit of 125 ft/lbs.
- If resistance is met, stop and reassess rather than forcing the tool.

#### **4. Removal:**

- After completing the task, carefully detach the wrench head from the body.
- Store the wrench body and heads in a safe, dry place to prevent damage.

## **Disposal Instructions**

- Dispose of the Modular Action Wrench Body and any broken parts in accordance with local regulations.
- Do not dispose of the product in regular household waste. Check for recycling options in your area.

## **Contact Information for Further Support**

For any questions or additional support regarding the Modular Action Wrench Body, please consult the appropriate EU contact point for assistance.

Please ensure that you follow these safety instructions closely to maximize the effectiveness of your Modular Action Wrench Body and maintain a safe working environment. Thank you for your attention to safety!
