

NECK/SHOULDER SIZING BUSHINGS - SHORT ACTION CUSTOMS 6MM BRA 0.267" SIZING BUSHING

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

The Neck/Shoulder Sizing Bushings from Short Action Customs are made for use in their Modular Sizing Dies. These are cartridge specific sizing bushings that allow you to dial in the correct amount of bump while also fully sizing the neck of the cartridge. These new bushings address the inherent flaws with the old sizing system with all new internal bushing geometry designed to reduce neck runout while increasing loaded cartridge concentricity in the chamber. Made from 17-4 H900 stainless steel, then processed with the same heat treat as the Precision Resizing Dies. These neck/shoulder bushings have an incredibly smooth inside finish paired with an extremely slick external finish from heat treat.

Attributes

- Name: [SHORT ACTION CUSTOMS 6MM BRA 0.267" SIZING BUSHING](#)
- Manufacturer: [SHORT ACTION CUSTOMS](#)
- Product no.: 100050177

Safety Instruction Guide for NECK/SHOULDER SIZING BUSHINGS SHORT ACTION CUSTOMS 6MM BRA 0.267" SIZING BUSHING

Introduction

Thank you for choosing the NECK/SHOULDER SIZING BUSHINGS from Short Action Customs. This product is designed for use in modular sizing dies and is intended to enhance the precision of your reloading process. Please read this safety instruction guide carefully to ensure safe and effective use of this product.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always wear appropriate safety gear, including eye protection, when handling or using reloading equipment.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for signs of wear or damage before each use.
- Follow all local laws and regulations related to the use of reloading equipment.

Specific Safety Precautions for Use

- Always ensure the sizing bushing is correctly installed in the die before use.
- Do not exceed the recommended pressure limits when resizing cartridges.
- Avoid using the sizing bushing with incompatible cartridges.
- If you notice any unusual sounds or resistance during operation, stop immediately and inspect the equipment.
- Store the sizing bushings in a dry, secure location to prevent damage or corrosion.

Instructions for Installation and Usage

1. Installation of the Sizing Bushing:

- Ensure that the modular sizing die is clean and free of debris.
- Insert the NECK/SHOULDER SIZING BUSHING into the die until it is securely seated.
- Tighten the retaining screw to hold the bushing in place.

2. Using the Sizing Bushing:

- Set your reloading press to the appropriate setting for the cartridge you are resizing.
- Place the cartridge into the die and apply steady pressure to resize.
- Monitor the process for any signs of resistance or abnormal behavior.

3. PostUse Inspection:

- After use, remove the sizing bushing from the die.
- Clean the bushing with a soft cloth to remove any residue.
- Inspect the bushing for wear or damage and replace if necessary.

Disposal Instructions

- Dispose of any damaged or worn sizing bushings in accordance with local regulations.
- Do not dispose of in regular household waste. Check for local recycling programs or hazardous waste

disposal options.

Contact Information for Further Support

For safety inquiries or further assistance, please refer to the contact points provided by your retailer or manufacturer. Always ensure that you have access to support in case of safety concerns.

Conclusion

Following the guidelines outlined in this safety instruction guide will help ensure a safe and effective experience when using the NECK/SHOULDER SIZING BUSHINGS. Always prioritize safety and adhere to local regulations. Thank you for your commitment to safe reloading practices.
