

# NECK/SHOULDER SIZING BUSHINGS - SHORT ACTION CUSTOMS 6MM CREEDMOOR 0.270" SIZING BUSHING

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

The Neck/Shoulder Sizing Bushings from Short Action Customs are made for use in their Modular Sizing Dies. These are cartridge specific sizing bushings that allow you to dial in the correct amount of bump while also fully sizing the neck of the cartridge. These new bushings address the inherent flaws with the old sizing system with all new internal bushing geometry designed to reduce neck runout while increasing loaded cartridge concentricity in the chamber. Made from 17-4 H900 stainless steel, then processed with the same heat treat as the Precision Resizing Dies. These neck/shoulder bushings have an incredibly smooth inside finish paired with an extremely slick external finish from heat treat.

## Attributes

- Name: [SHORT ACTION CUSTOMS 6MM CREEDMOOR 0.270" SIZING BUSHING](#)
- Manufacturer: [SHORT ACTION CUSTOMS](#)
- Product no.: 100050180

# NECK/SHOULDER SIZING BUSHINGS SAFETY INSTRUCTIONS

## Introduction

Thank you for choosing the Neck/Shoulder Sizing Bushings from Short Action Customs. These bushings are designed to enhance your reloading process for the 6MM Creedmoor cartridge. To ensure safe and effective use, please read and follow these safety instructions carefully.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose as specified in the product description.
- Store the bushings in a dry, cool place away from direct sunlight and moisture.
- Keep the bushings out of reach of children and pets to prevent accidental injury or misuse.
- Regularly inspect the bushings for any signs of damage or wear. If damaged, discontinue use immediately.
- Always wear appropriate safety gear, including safety glasses, when handling reloading equipment.

## Specific Safety Precautions for Use

- Before use, ensure that your Modular Sizing Die is compatible with the Neck/Shoulder Sizing Bushings.
- Do not exceed the recommended sizing specifications for your cartridge to avoid potential damage or malfunction.
- When adjusting the sizing bushing, do so gradually to achieve the desired neck tension without oversizing.
- Maintain a clean working environment to prevent contamination of the bushings and cartridges.
- Avoid using excessive force when installing or removing the bushings to prevent damaging the threads or the bushings themselves.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and materials, including your Modular Sizing Die, the Neck/Shoulder Sizing Bushing, and any safety equipment.

### 2. Installation:

- Remove the Modular Sizing Die from your reloading press.
- Carefully unscrew the existing bushing from the die.
- Screw the new Neck/Shoulder Sizing Bushing into the die, ensuring it is securely fastened but not overtightened.

### 3. Usage:

- Reinstall the Modular Sizing Die into your reloading press.
- Adjust the die according to your desired settings for neck sizing.
- Insert the cartridge case into the die and operate the press according to the manufacturer's instructions.
- Monitor the process closely to ensure proper sizing and avoid any malfunctions.

### 4. PostUse:

- After use, carefully remove the bushing from the die for cleaning and inspection.
- Clean the bushing with a soft cloth to remove any debris or residue.
- Store the bushing in its designated place to prevent damage.

## Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not throw bushings in regular trash if they are made of metal or other recyclable materials; check for recycling options in your area.

## Contact Information for Further Support

- For any safety inquiries or support related to the Neck/Shoulder Sizing Bushings, please refer to the manufacturer's contact information provided with your product packaging or visit the manufacturer's website.

## Conclusion

By following these safety instructions, you can ensure a safe and effective reloading experience with your Neck/Shoulder Sizing Bushings. Always prioritize safety and consult the appropriate resources for any questions or concerns regarding your reloading equipment. Thank you for your attention to these important guidelines.
