

NECK/SHOULDER SIZING BUSHINGS - SHORT ACTION CUSTOMS 6MM DASHER 0.267" SIZING BUSHING

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

The Neck/Shoulder Sizing Bushings from Short Action Customs are made for use in their Modular Sizing Dies. These are cartridge specific sizing bushings that allow you to dial in the correct amount of bump while also fully sizing the neck of the cartridge. These new bushings address the inherent flaws with the old sizing system with all new internal bushing geometry designed to reduce neck runout while increasing loaded cartridge concentricity in the chamber. Made from 17-4 H900 stainless steel, then processed with the same heat treat as the Precision Resizing Dies. These neck/shoulder bushings have an incredibly smooth inside finish paired with an extremely slick external finish from heat treat.

Attributes

NECK/SHOULDER SIZING BUSHINGS SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the Neck/Shoulder Sizing Bushings from Short Action Customs. These bushings are designed to enhance your reloading process by providing precise sizing for your cartridges. To ensure safe and effective use of this product, please carefully read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as specified by the manufacturer.
- Always handle the bushings with care to prevent injury.
- Keep the bushings out of reach of children and pets.
- Regularly inspect the bushings for any signs of wear or damage before use.
- If you notice any defects or abnormalities, discontinue use immediately and report the issue.
- Follow all local regulations and guidelines related to reloading and ammunition.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses and gloves, when handling reloading equipment.
- Ensure your workspace is clean and organized to prevent accidents.
- Do not exceed the recommended specifications for your cartridges as outlined in the product manual.
- Be aware of your surroundings and ensure that no one is in close proximity while you are reloading.
- If you are new to reloading, seek guidance from experienced individuals or resources before proceeding.

Instructions for Installation and Usage

1. Installation:

- Ensure that your Modular Sizing Die is clean and free of debris.
- Select the appropriate Neck/Shoulder Sizing Bushing for your cartridge size (0.267" for 6mm Dasher).
- Insert the sizing bushing into the die, ensuring it fits securely.
- Tighten any screws or fasteners to hold the bushing in place.

2. Usage:

- Prepare your cartridge cases by cleaning and inspecting them for defects.
- Adjust the die according to your desired bump setting, ensuring it is properly calibrated.
- Insert the cartridge case into the die and apply the resizing process.
- After resizing, remove the cartridge case and inspect it for proper sizing and any signs of damage.
- Store the bushings in a safe, dry place when not in use.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations regarding metal waste.
- Do not throw bushings in regular trash; check for recycling programs or hazardous waste disposal options in your area.

Contact Information for Further Support

For any inquiries regarding safety, usage, or product support, please refer to the manufacturer's contact information provided in the product packaging or on the official website.

Conclusion

By following these safety instructions and guidelines, you can ensure a safe and effective reloading experience with the Neck/Shoulder Sizing Bushings from Short Action Customs. Always prioritize safety and adhere to best practices to protect yourself and others while using this product.
