

NECK/SHOULDER SIZING BUSHINGS - SHORT ACTION CUSTOMS

6.5MM PRC 0.290" SIZING BUSHING

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

The Neck/Shoulder Sizing Bushings from Short Action Customs are made for use in their Modular Sizing Dies. These are cartridge specific sizing bushings that allow you to dial in the correct amount of bump while also fully sizing the neck of the cartridge. These new bushings address the inherent flaws with the old sizing system with all new internal bushing geometry designed to reduce neck runout while increasing loaded cartridge concentricity in the chamber. Made from 17-4 H900 stainless steel, then processed with the same heat treat as the Precision Resizing Dies. These neck/shoulder bushings have an incredibly smooth inside finish paired with an extremely slick external finish from heat treat.

NECK/SHOULDER SIZING BUSHINGS SAFETY INSTRUCTION GUIDE

Introduction

Thank you for choosing the Neck/Shoulder Sizing Bushings from Short Action Customs. This product is designed to enhance your reloading experience by ensuring precise neck sizing for your cartridges. To ensure your safety and the optimal use of this product, please read the following safety instructions carefully.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always handle the sizing bushings with care to avoid injury.
- Inspect the bushings for any signs of damage before use.
- Store the bushings in a safe place out of reach of children and pets.
- Follow all local laws and regulations regarding reloading and ammunition.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses and gloves, when handling reloading equipment.
- Do not exceed the manufacturer's specifications for cartridge dimensions and sizing.
- Be cautious of sharp edges on the sizing bushings to prevent cuts or injuries.
- Ensure that the Modular Sizing Dies are securely mounted and stable during use.
- Avoid using the sizing bushings with incompatible cartridges to prevent malfunctions.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools and materials, including the Modular Sizing Dies and the sizing bushings.
- Ensure your workspace is clean and welllit.

2. Installation

- Remove any existing sizing bushings from the Modular Sizing Die.
- Select the appropriate Neck/Shoulder Sizing Bushing for your cartridge.
- Insert the new sizing bushing into the die, ensuring it is seated correctly.
- Tighten any locking mechanisms to secure the bushing in place.

3. Usage

- Place the cartridge in the die and apply even pressure to size the neck.
- Adjust the amount of bump as necessary by changing the bushing or modifying your technique.
- Inspect the sized cartridge for consistency and accuracy.

4. PostUse Care

- Clean the sizing bushings after each use to remove any debris or residue.
- Store the bushings in a protective case to prevent damage.

Disposal Instructions

- Dispose of any damaged or worn sizing bushings according to local regulations.
- Do not dispose of the bushings in regular household waste. Instead, check for recycling options available in your area.

Contact Information for Further Support

For any questions or concerns regarding the use or safety of the Neck/Shoulder Sizing Bushings, please refer to the manufacturer's official website or contact their customer support team.

Conclusion

By following these safety instructions, you can ensure a safe and effective reloading experience with your Neck/Shoulder Sizing Bushings. Always prioritize safety and adhere to best practices while using this product. Thank you for your commitment to safe reloading practices.
